## EUROPE FEARS "RED" TROUBLES ON MAY DAY

FRANCE, ITALY,  
BULGARIA AND  
OTHERS ACTING

WIDESPREAD INTERNATIONAL  
PLOT TO FOSTER OUT-  
BREAKS FEARED

HUGE INFERNAL MACHINE DIS-  
COVERED IN RAILWAY STA-  
TION NEAR RIGA

(By United Press)  
London, April 30.—Fearing that  
arrival of May day tomorrow might  
be a signal for concerted Communist  
outrages, police of France, Italy,  
Bulgaria and Estonia, Hungary and  
the Rhineland today took action.

Special precautions were also tak-  
en in Great Britain and other coun-  
tries of Europe, the authorities claim-  
ing evidence of a widespread inter-  
national plot to foster "red" out-  
break.

Eleven communists were arrested  
in Paris with automatic revolvers  
and ammunition in their possession.  
Raids continued for the past three  
days throughout the French capital  
have disclosed stores of explosives.

A huge infernal machine was dis-  
covered in a railway station near  
Riga, apparently designed to wreck  
a special train carrying the Estonian  
president and many government  
officials.

At Rome two tons of communistic  
literature were seized while police  
were active in rounding up suspects  
in Turin, Milan, Naples and else-  
where. Fascist militia assisted in a  
general roundup during which a plot  
to establish communist centers  
through Italy was unearthed. The  
Italian police claimed to have found  
evidence that the above plot was only  
a portion of a "red" network embrac-  
ing central Europe and the Balkans.

Hungarian authorities prohibited  
meetings or processions in Budapest  
for the next three days.

PLANS FOR BOMB  
OUTRAGE FRUSTRATED

London, April 30.—Plans for a  
bomb outrage in Rome similar to  
that which cost more than 200 lives  
in the cathedral at Sofia, have been  
frustrated by officials, the latter be-  
lieve, according to a Central News  
dispatch.

The Rome report says that a Bol-  
shevik document seized by the police  
reveals a beautiful woman spy has  
been assisting reds in the Italian  
capital. She penetrates in highest  
society and has made use of a dicta-  
phone to gather information, the  
Central News correspondent reports.

FIREMEN RESCUE  
7 MEN FROM FIRE

WERE LODGED ON THE UPPER  
FLOORS OF BURNING ROOM-  
ING HOUSE IN ST. PAUL

(By United Press)  
South St. Paul, April 30.—Firemen  
rescued seven men from the upper  
floors of a burning rooming house  
here last night. One of the men was  
overcome by smoke. The building,  
occupied by a tobacco shop, restaur-  
ant, barber shop and jewelry store,  
was destroyed.

LUTHERANS NOT  
AFFECTED BY  
MODERNISM BELIEF

Chicago, April 30.—Modernism has  
not yet affected the Lutheran church  
—this denomination still holds fast  
to belief in the virgin birth of Christ  
and other "fundamental" doctrines.  
Dr. Peter Peterson, president of the  
Illinois conference of the Augustana  
Lutheran synod, declared in his an-  
nual report yesterday.

"Modernism has not gained en-  
trance into the Lutheran church,"  
Dr. Peterson asserted. "We still  
preach Jesus Christ, true God, begot-  
ten of the Father from eternity and  
also true man, born of the Virgin  
Mary. This same old gospel has  
been preached in our conference since  
its founding."

## Two-Cent Tax on Gasoline In Effect at Midnight

CHEERING CROWDS  
GREET PRINCE OF  
WALES AT CAPETOWN

(By United Press)  
Capetown, South Africa, April  
30.—The Prince of Wales landed  
here today from H. M. S. Repulse  
and drove through miles of cheer-  
ing crowds to receive an official  
address of welcome from the local  
authorities.

A general amnesty of prisoners,  
with the exception of long-term  
convicts and those sentenced to  
death, was declared, thousands be-  
ing freed in all parts of the coun-  
try.

14 YEAR OLD  
HIGH SCHOOL GIRL  
LOST FROM HOME

TWIN CITY POLICE SEARCH FOR  
GIRL WHOSE HOME IS  
REDWOOD FALLS

TAXICAB DRIVER RECENTLY AR-  
RESTED MAY HAVE IN-  
FORMATION

(By United Press)  
Minneapolis, April 30.—Twin City  
police have been asked to aid in the  
search for Doris Davis, 14-year-old  
high school girl who disappeared  
from her home in Redwood Falls  
three days ago. She left on a train  
for Minneapolis without the knowl-  
edge of her parents.

The recent disappearance of sev-  
eral girls of high school age was be-  
lieved solved with the arrest of Don-  
ald Libby, taxicab driver. Police  
said he had made admissions that  
probably would lead to serious  
charges against him. The girls  
would be gone for a day or two and  
would return with indefinite explana-  
tions.

MAGNUS JOHNSON  
OF FARIBAULT  
GIVES TESTIMONY

SAYS HE IS MAN ARRESTED FOR  
DRUNKENNESS IN MILL  
CITY

THIS CLEARS SENATOR MAGNUS  
JOHNSON OF CHARGES, SAY  
HIS LAWYERS

(By United Press)  
Minneapolis, April 30.—Magnus  
Johnson of Faribault, Minn., testified  
in court today that he is the man  
who was arrested for drunkenness in  
Minneapolis in May, 1923.

This, it was declared by attorneys  
for Magnus Johnson, clears the for-  
mer U. S. senator of charges that he  
was the man arrested and fined for  
drunkenness. The Faribault Mag-  
nus Johnson testified the allegation  
that he had been threatened with  
prosecution on a charge of trans-  
porting liquor was false. He had no  
liquor in his car when arrested, he  
said.

The Magnus Johnson who testified  
today does not resemble the former  
senator who brought charges of  
criminal libel against A. N. Jacobs,  
campaign manager for Thomas D.  
Schall in the election campaign last  
November.

Bachelor Tax May Fall  
on Canadian Premier

Ottawa, Ont., April 30.—Canadian  
bachelors would have to pay a spe-  
cial tax under a bill soon to be pre-  
sented in parliament.

In advocating the special assess-  
ment, A. J. Lewis, progressive mem-  
ber of parliament, said that Premier  
W. L. M. King, in remaining a  
bachelor, was setting a bad example  
for the younger generation.

MARRIED WOMAN  
SHOOTS MAN WHO  
ATTACKED HER

FRANTIC WITH FRIGHT, MRS.  
ROLLIE CRANDALL SPEEDS  
AWAY IN CAR

LADYSMITH, WIS., WOMAN THEN  
COLLAPSES AT CAMERON  
JUNCTION

(By United Press)  
Ladysmith, Wis., April 30.—Frantic  
with fright after she shot the  
man who attacked her honor, Mrs.  
Rollie Crandall, 35, escaped his  
clutches, leaped into the family car  
and sped 45 miles through the night  
at breakneck speed, collapsing in a  
restaurant at Cameron Junction.

Details of the affair were learned  
today when Mrs. Crandall, identified  
in a hospital at Rice Lake, was  
brought back to her home here.

"Bill" Ellingboe, 35, an undertak-  
er, was the victim of her defense. A  
bullet from a 38.55 caliber hunting  
rifle entered his jaw and came out at  
his temple. Physicians say he will  
recover.

Mrs. Crandall was lying on the  
bed crooning her two small children  
to sleep Tuesday night. Her hus-  
band, a garageman and livery owner,  
had driven to Couderay Lake. The  
house was open.

At about 9 o'clock, according to  
Police Chief L. F. Lozier, Ellingboe,  
who is married and has two children,  
entered the bed chamber. He made  
advances and Mrs. Crandall grabbed  
her husband's rifle. In the scuffle  
which followed Ellingboe was shot.  
Mrs. Crandall fled down stairs shout-  
ing that she was going for her hus-  
band. Ellingboe staggered after her.  
She leaped into the family sedan hat-  
less and coatless and drove away.  
Ellingboe was found in the yard by  
Fred Crandall, a brother-in-law of  
the woman. He took Ellingboe home.

Some time later, Mrs. Crandall  
staggered into the restaurant at  
Cameron Junction and collapsed. She  
was taken to a hospital at Rice Lake.  
At the hospital she was hysterical  
and not until late yesterday was she  
identified. Her husband was notified  
and came for her.

Ellingboe was placed in the Sis-  
ters' Hospital here and will recover,  
it was said today. Both principals  
in the affair were respected citizens.  
Fred Crandall said Ellingboe was  
intoxicated.

County Attorney B. H. Buckhart  
has not decided whether charges will  
be brought against either.

BABCOCK RENAMED  
AS HIGHWAY CHIEF

GOVERNOR CHRISTIANSON MADE  
FOUR APPOINTMENTS  
YESTERDAY

St. Paul, April 30.—Gov. Theodore  
Christianson has announced four ap-  
pointments.

Charles M. Babcock, state highway  
commissioner, was reappointed for  
an indefinite term.

Paul Dansingberg, editorial writer  
for the Minneapolis Journal, was  
named state law librarian for a two-  
year term to succeed Charles F. Ebel,  
Rice county. The position carries a  
\$4,000 yearly salary.

E. V. Mothersill, state employee for  
many years, was named to the state  
workmen's compensation board, a  
position he held up to the 1923 legis-  
lative session, when the board was  
made inactive. At the 1925 session  
the board's powers were restored.

C. M. Stockton was appointed mu-  
nicipal judge at Faribault. This  
place was created by the last legis-  
lative session.

Lake City, Minn., April 30.—John  
Lindgren, laborer, enroute from De-  
troit, Mich., to St. Paul, was killed  
in a fall from a passenger train near  
here Wednesday.

INSTANTLY KILLED  
WHILE REPAIRING  
TIRE AT ROADSIDE

(By United Press)  
Ortonville, Minn., April 30.—  
Henry Baker, 49, of Big Stone  
City, S. D., was instantly killed  
near here Wednesday night when  
struck by an automobile while re-  
pairing a tire at the roadside.  
Mrs. J. R. Lewis, driver of the  
death car, contended that dust  
from a preceding automobile ob-  
structed her view of the road.  
Baker was not married.

GIRL MAY GO ON  
HUNGER STRIKE

MISS MARY MAC SWINEY ALLEG-  
ED TO BE WITHOUT  
PASSPORT

(By United Press)  
Chicago, April 30.—Miss Mary  
MacSwiney, arden worker for the  
Irish Republic and sister of the late  
Terrence MacSwiney, plans to go on  
a hunger strike if she is arrested by  
the federal government for coming  
into this country without a passport.

Before departing for Minneapolis  
last night for a speech in behalf of  
her cause, Miss MacSwiney admitted  
she had been questioned by immigra-  
tion authorities. She said she told  
them she had no passport, but de-  
clared she would be able to convince  
the government she had not violated  
any of the laws. Miss MacSwiney  
said she felt she did not need a pas-  
sport to come into the United States.

EXPLAINS HOW SHE  
CAME TO AMERICA

Minneapolis, April 30.—"You can  
say for me that I came to this coun-  
try last January on a beam of the  
total eclipse," was Miss Mary Mac-  
Swiney's reply to pressing questions  
today as to whether she had an an-  
swer for immigration authorities.  
She arrived from Chicago just before  
noon, only to find that such tedious  
things as passport explanations are  
demanded in Minnesota, as well as  
in Illinois.

W. G. Nyquist from the office of  
Immigration Commission Seaman  
sent word to the well known lady  
from Ireland that he would like to  
interview her this afternoon.

Miss MacSwiney said that "of  
course" she had no intention of vi-  
olating the laws of the United States,  
but that it would be simply impos-  
sible for her to accept a passport  
from the Irish Free State.

Wherefore, she just simply "ar-  
rived" in this country. The sister of  
Terrence MacSwiney, late lord mayor  
of Cork, tacitly admitted she had no  
such thing as a passport, but she is  
in the "Twin Cities" for a series of  
lectures and she "hasn't any notion"  
where she will report to the office of  
the immigration commissioner in  
Chicago as requested yesterday.

"Why, I would never accept a pas-  
sport from the Irish Free State," she  
said emphatically. She admitted,  
however, that the Irish Free State is  
her only country of residence and  
the only one that could legally give  
her a passport.

Reports that her sister, widow of  
the late lord mayor, was held in a  
German prison, were characterized  
by Miss MacSwiney as being too ut-  
terly ridiculous. She said it was  
true Mrs. MacSwiney was in Ger-  
many, but denied she was in prison.

JOB FOR THE "FLY  
COP" IS REPORTED

(By United Press)  
St. Paul, April 30.—Here's a job for  
the "fly cop."

Some one stole a pair of wings from  
his airplane at Wold-Chamberlain  
field, Ted Karnsteade, aviator, report-  
ed to police today.

Columbia University Library has  
added the millionth volume to its  
steadily growing collection. The  
education section is on four floors of  
the new building of Teachers Col-  
lege.

PARRICIDE HAS  
NEITHER REMORSE  
NOR PENITENCE

MELLO GHILARDI, CHISHOLM  
BOY, ADMITS SHOOTING  
FATHER

JAILER SAYS HE REMAINS AS  
"COOL AS A CUCUM-  
BER"

(By United Press)  
Duluth, Minn., April 30.—Mello  
Ghilardi, Chisholm paricide, knows  
neither remorse nor penitence today.

Frankly admitting that he shot his  
own father, the 20-year-old boy ap-  
peared to interviewers to have more  
of a spirit of elation that he had ac-  
complished the death of his parent.  
As the St. Louis county jailer ex-  
pressed it, Mello remains "cool as a  
cucumber."

"Sorry? What for?" the lad re-  
plied with a quizzical look. "Not  
me," he went on, with a queer little  
laugh.

"I got back at him good and plenty  
and he had it coming too," the par-  
ricide added more sternly.

Mello talked freely of the plot he  
laid to kill his father, Egildo Ghil-  
ardi, 40, a Chisholm village laborer.  
"The old man had struck and  
scolded me all the time," was his ex-  
planation of the motive. He related  
how he smuggled a shotgun into the  
basement of their home and how he  
lay in wait for his father.

"The old man was making moon-  
shine," he went on. "I laid in wait  
for him and when he came down I  
let him have it."

"Then I went over to the body,  
saw that he was dead and stepped  
into some blood. I wiped this off  
and went upstairs and out to a pool  
hall where the police picked me up  
later." Mello said he thought he  
would have an attorney defend him.  
Observers believe his mind is unde-  
veloped. He was recently under ob-  
servation as an insanity suspect. His  
mother's mind has been affected, but  
it is understood she is now ready to  
be discharged from a state sanitor-  
ium at Willmar as cured.

The boy has been confined in cor-  
rectional institutions on several oc-  
casions.

When the St. Louis grand jury  
meets May 12th the boy likely will  
be indicted for murder. He will  
then come to trial. Meanwhile, he  
is utterly indifferent.

Ida, his 15-year-old sister who dis-  
covered the crime, is prostrated with  
grief at the home of her uncle in  
Chisholm. The elder Ghilardi was  
buried today.

LIGHT FROST  
HITS FRUIT TREES

THIRD NIGHT IN SUCCESSION OF  
LOW TEMPERATURE IN  
ST. PAUL

(By United Press)  
St. Paul, April 30.—Fruit trees  
suffered some damage and spring  
growth was considerably retarded by  
another light frost last night, ac-  
cording to reports to the weather bu-  
reau. It was the third night in suc-  
cession during which this section  
was visited by light frost.

In the northern part of the state  
ice formed in some places and heavy  
frost was reported in sections of  
North Dakota.

Fair weather and rising tempera-  
ture promised for today was expected  
to bring relief from the frost danger.

A storm swept central Minnesota  
late yesterday, carrying away tele-  
phone poles and trees in the vicinity  
of Paynesville. That place was cut  
off from outside communication.

Brookings, S. D., April 30.—Sheriff  
Roberts was enroute to Minneapolis  
today for Carl Tolevar and William  
Lane, arrested there on a charge of  
grand larceny for the theft of a car  
at White, S. D.

TUG SINKS OFF  
GRAY'S HARBOR  
WITH 4 ON BOARD

(By United Press)  
Hoquiam, Wash., April 30.—The  
tug Reba, of the Alman-Hubble  
company fleet, sank today off  
Gray's Harbor with four men  
aboard. It is believed all lives  
were lost. The tug went to sea  
with the steamer Etna Maru and  
was returning when she was seen  
to sink suddenly about a mile off  
the entrance. The Reba was the  
largest tug owned by the com-  
pany.

PITCHFORK  
BATTLE ENDS  
IN DEATH OF 1

JULIUS HOPP NOW IN JAIL AT  
NICOLLET,  
MINN.

POSSESSION OF HAY STACK WAS  
CAUSE OF THE  
FIGHT

(By United Press)  
Nicollet, Minn., April 30.—Julius  
Hopp, 39, is in jail awaiting grand  
jury action for the killing of Louis  
Wills, 27, in a pitchfork battle for  
possession of a hay stack.

Hopp occupies a rented farm ad-  
joining the Wills' property on which  
was a stack of hay purchased by  
Wills.

When the young farmer came for  
his hay a fight ensued, Wills stabbing  
with a pitchfork and Hopp clubbing  
a fence post.

Hopp is alleged to have struck  
Wills on the head with the post after  
receiving jabs in the arms and legs  
from the fork. Wills died at the  
New Ulm hospital. He is survived  
by a wife and four children.

FILLED HIM UP  
WITH WHISKEY AND  
OFFERED BRIBE

EARL B. CLARK SAYS SHEP-  
HERD'S ATTORNEY WANTED  
HIM TO CHANGE STORY

CLARK AT ONE TIME WAS AN  
EMPLOYEE OF FAIMAN'S  
UNIVERSITY

(By United Press)  
Chicago, April 30.—Earl B. Clark,  
an important state witness against  
William D. Shepherd testified today  
that Shepherd's attorney had "filled  
me up on Scotch whiskey and offered  
me \$5,000 to change my testimony."

Clark's testimony came at the  
resumption of the inquest into the  
death of Billy McClintock, million-  
aire orphan. Shepherd is accused of  
inoculating the youth with typhoid  
fever germs in an effort to obtain the  
McClintock \$1,000,000 estate.

"William Scott Stewart, Shep-  
herd's attorney, met me in a news-  
paper office," Clark testified. "He  
filled me up on Scotch whiskey and  
then offered me \$5,000 to change my  
testimony."

"He said that all I needed to do  
was to sign an affidavit denying all  
I had testified to previously.

"Stewart threatened to prosecute  
me for an abortion if I refused, but  
I told him to go ahead—he didn't  
have anything on me."

Clark, who testified previously at  
the inquest, was the first witness to  
link Shepherd with Dr. C. C. Faiman,  
the dapper president of a question-  
able correspondence medical school.  
Clark was once an employee of Fai-  
man's National University of Sci-  
ences.

As a result of Clark's testimony,  
Faiman was arrested and confessed  
giving typhoid germs to Shepherd  
with instructions as to how they  
should be administered to Billy Mc-  
Clintock to cause death.

STATE OIL  
INSPECTOR READY  
FOR COLLECTIONS

67 DEPUTIES ASSIGNED TO POSTS  
THROUGHOUT THE  
STATE

GET REPORTS FROM DISTRIBUT-  
ING AGENTS ON SALES  
AND STOCKS

(By United Press)  
St. Paul, April 30.—Minnesota's  
tax of 2 cents a gallon on retail sales  
of gasoline will go into effect at mid-  
night tonight. Hjalmer Nelsson,  
chief state oil inspector, has made all  
arrangements for collection of the  
tax, he stated today.

Sixty-seven deputies have been as-  
signed to posts throughout the state  
to arrange for reception of reports  
from distributing agents on the first  
day's sales and gasoline stocks on  
hand.

After the first day's reports none  
will be made until the end of each  
month when chief distributors will  
make reports of quantity sold.

Under the new law, it is antici-  
pated the state will receive about  
\$4,500,000 annually. The tax will be  
collected without expense, the duties  
of collection simply being added to  
duties already imposed upon the  
staff of 67 deputy state oil inspectors.

BANKER GIVEN  
CHANCE TO GET  
BAIL FOR RELEASE

Minneapolis, April 30.—A. H. Hen-  
drickson, vice president of the First  
State bank of Little Sauk, was given  
an opportunity today to provide bail  
following his arrest on a charge of  
embezzlement.

The bank was closed by the state  
banking department and L. H. Nelson,  
cashier, is now serving a sentence in  
St. Cloud reformatory for embezzle-  
ment.

Hendrickson probably will be prose-  
cuted in federal court when the May  
term opens in Fergus Falls next week.  
He is alleged to have manipulated  
funds belonging to the Federal Land  
bank, St. Paul. The bank had depos-  
its of \$125,000. The exact loss to de-  
positors had not been determined.  
Hendrickson's arrest is reported to  
involve about \$30,000.

OIL PAINTINGS BY  
MINNESOTA ARTISTS

25 TO BE DISPLAYED AT TEACH-  
ERS' COLLEGE AT ST.  
CLOUD

St. Cloud, April 30.—Through the  
courtesy of the Minnesota State Art  
society there is to be an exhibit of  
twenty-five oil paintings by two  
Minnesota artists, displayed at the  
Teachers' college here for two days  
next week. The exact date of the  
arrival of these paintings is not  
known today but will be announced  
to the public later. Anyone inter-  
ested in this class of work is invited  
to see this exhibition in the art room  
of the Teachers college.

Under direction of Miss Carrie  
Minich an art club was organized in  
the school in September of the past  
year. Co-operating with the Ameri-  
can federation of art and the Minne-  
sota state art society the club has  
had the privilege during the year of  
hearing a number of addresses on art  
and its application which has been  
very helpful, these lectures amply  
illustrated with pictures and slides.

On Wednesday, May 13, Miss Flor-  
ence Wright, a graduate of the  
Teachers college and a former mem-  
ber of the faculty, will lecture to the  
club on interior decorating. Miss  
Wright, during the current year, has  
been a member of the faculty of the  
Minneapolis school of art. She spent  
the year 1923-'24 at Columbia uni-  
versity, New York.—St. Cloud Daily  
Journal-Press.

# THE BRAINERD DAILY DISPATCH

BRAINERD, MINNESOTA, THURSDAY, APRIL 30, 1925

Price Three Cents

## EUROPE FEARS "RED" TROUBLES ON MAY DAY

### FRANCE, ITALY, BULGARIA AND OTHERS ACTING

#### WIDESPREAD INTERNATIONAL PLOT TO FOSTER OUT- BREAKS FEARED

#### HUGE INFERNAL MACHINE DIS- COVERED IN RAILWAY STA- TION NEAR RIGA

(By United Press)  
London, April 30.—Fearing that arrival of May day tomorrow might be a signal for concerted Communist outrages, police of France, Italy, Bulgaria and Estonia, Hungary and the Rhineland today took action.

Special precautions were also taken in Great Britain and other countries of Europe, the authorities claiming evidence of a widespread international plot to foster "red" outbreaks.

Eleven communists were arrested in Paris with automatic revolvers and ammunition in their possession. Raids continued for the past three days throughout the French capital have disclosed stores of explosives.

A huge infernal machine was discovered in a railway station near Riga, apparently designed to wreck a special train carrying the Estonian president and many government officials.

At Rome two tons of communistic literature were seized while police were active in rounding up suspects in Turin, Milan, Naples and elsewhere. Fascist militia assisted in a general roundup during which a plot to establish communist centers through Italy was unearthed. The Italian police claimed to have found evidence that the above plot was only a portion of a "red" network embracing central Europe and the Balkans.

Hungarian authorities prohibited meetings or processions in Budapest for the next three days.

#### PLANS FOR BOMB OUTRAGE FRUSTRATED

London, April 30.—Plans for a bomb outrage in Rome similar to that which cost more than 200 lives in the cathedral at Sofia, have been frustrated by officials, the latter believe, according to a Central News dispatch.

The Rome report says that a Bolshevik document seized by the police reveals a beautiful woman spy has been assisting reds in the Italian capital. She penetrates in highest society and has made use of a telephone to gather information, the Central News correspondent reports.

### FIREMEN RESCUE 7 MEN FROM FIRE

#### WERE LODGED ON THE UPPER FLOORS OF BURNING ROOM- ING HOUSE IN ST. PAUL

(By United Press)  
South St. Paul, April 30.—Firemen rescued seven men from the upper floors of a burning rooming house here last night. One of the men was overcome by smoke. The building, occupied by a tobacco shop, restaurant, barber shop and jewelry store, was destroyed.

### LUTHERANS NOT AFFECTED BY MODERNISM BELIEF

Chicago, April 30.—Modernism has not yet affected the Lutheran church—this denomination still holds fast to belief in the virgin birth of Christ and other "fundamental" doctrines, Dr. Peter Peterson, president of the Illinois conference of the Augustana Lutheran synod, declared in his annual report yesterday.

"Modernism has not gained entrance into the Lutheran church," Dr. Peterson asserted. "We still preach Jesus Christ, true God, begotten of the Father from eternity and also true man, born of the Virgin Mary. This same old gospel has been preached in our conference since its founding."

## Two-Cent Tax on Gasoline In Effect at Midnight

### CHEERING CROWDS GREET PRINCE OF WALES AT CAPE TOWN

(By United Press)  
Cape town, South Africa, April 30.—The Prince of Wales landed here today from H. M. S. Repulse and drove through miles of cheering crowds to receive an official address of welcome from the local authorities.

A general amnesty of prisoners, with the exception of long-term convicts and those sentenced to death, was declared, thousands being freed in all parts of the country.

### 14 YEAR OLD HIGH SCHOOL GIRL LOST FROM HOME

#### TWIN CITY POLICE SEARCH FOR GIRL WHOSE HOME IS REDWOOD FALLS

#### TAXICAB DRIVER RECENTLY AR- RESTED MAY HAVE IN- FORMATION

(By United Press)  
Minneapolis, April 30.—Twin City police have been asked to aid in the search for Doris Davis, 14-year-old high school girl who disappeared from her home in Redwood Falls three days ago. She left on a train for Minneapolis without the knowledge of her parents.

The recent disappearance of several girls of high school age was believed solved with the arrest of Donald Libby, taxicab driver. Police said he had made admissions that probably would lead to serious charges against him. The girls would be gone for a day or two and would return with indefinite explanations.

### MAGNUS JOHNSON OF FARIBAULT GIVES TESTIMONY

#### SAYS HE IS MAN ARRESTED FOR DRUNKENNESS IN MILL CITY

#### THIS CLEARS SENATOR MAGNUS JOHNSON OF CHARGES, SAY HIS LAWYERS

(By United Press)  
Minneapolis, April 30.—Magnus Johnson of Faribault, Minn., testified in court today that he is the man who was arrested for drunkenness in Minneapolis in May, 1923.

This, it was declared by attorneys for Magnus Johnson, clears the former U. S. senator of charges that he was the man arrested and fined for drunkenness. The Faribault Magnus Johnson testified the allegation that he had been threatened with prosecution on a charge of transporting liquor was false. He had no liquor in his car when arrested, he said.

The Magnus Johnson who testified today does not resemble the former senator who brought charges of criminal libel against A. N. Jacobs, campaign manager for Thomas D. Schall in the election campaign last November.

#### Bachelor Tax May Fall on Canadian Premier

Ottawa, Ont., April 30.—Canadian bachelors would have to pay a special tax under a bill soon to be presented in parliament.

In advocating the special assessment, A. J. Lewis, progressive member of parliament, said that Premier W. L. M. King, in remaining a bachelor, was setting a bad example for the younger generation.

### MARRIED WOMAN SHOOTS MAN WHO ATTACKED HER

#### FRANTIC WITH FRIGHT, MRS. ROLLIE CRANDALL SPEEDS AWAY IN CAR

#### LADYSMITH, WIS., WOMAN THEN COLLAPSES AT CAMERON JUNCTION

(By United Press)  
Ladysmith, Wis., April 30.—Frantic with fright after she shot the man who attacked her honor, Mrs. Rollie Crandall, 35, escaped his clutches, leaped into the family car and sped 45 miles through the night at breakneck speed, collapsing in a restaurant at Cameron Junction.

Details of the affair were learned today when Mrs. Crandall, identified in a hospital at Rice Lake, was brought back to her home here.

"Bill" Ellingboe, 35, an undertaker, was the victim of her defense. A bullet from a 38.55 caliber hunting rifle entered his jaw and came out at his temple. Physicians say he will recover.

Mrs. Crandall was lying on the bed crooning her two small children to sleep Tuesday night. Her husband, a garageman and livery owner, had driven to Couderay Lake. The house was open.

At about 9 o'clock, according to Police Chief L. F. Lozier, Ellingboe, who is married and has two children, entered the bed chamber. He made advances and Mrs. Crandall grabbed her husband's rifle. In the scuffle which followed Ellingboe was shot. Mrs. Crandall fled down stairs shouting that she was going for her husband. Ellingboe staggered after her. She leaped into the family sedan hatless and coatless and drove away. Ellingboe was found in the yard by Fred Crandall, a brother-in-law of the woman. He took Ellingboe home.

Some time later, Mrs. Crandall staggered into the restaurant at Cameron Junction and collapsed. She was taken to a hospital at Rice Lake. At the hospital she was hysterical and not until late yesterday was she identified. Her husband was notified and came for her.

Ellingboe was placed in the Sisters' Hospital here and will recover, it was said today. Both principals in the affair were respected citizens. Fred Crandall said Ellingboe was intoxicated.

County Attorney B. H. Buckhart has not decided whether charges will be brought against either.

### BABCOCK RENAMED AS HIGHWAY CHIEF

#### GOVERNOR CHRISTIANSON MADE FOUR APPOINTMENTS YESTERDAY

St. Paul, April 30.—Gov. Theodore Christianson has announced four appointments.

Charles M. Babcock, state highway commissioner, was reappointed for an indefinite term.

Paul Dansingberg, editorial writer for the Minneapolis Journal, was named state law librarian for a two-year term to succeed Charles F. Ebel, Rice county. The position carries a \$4,000 yearly salary.

E. V. Mothersill, state employee for many years, was named to the state workmen's compensation board, a position he held up to the 1923 legislative session, when the board was made inactive. At the 1925 session the board's powers were restored.

C. M. Stockton was appointed municipal judge at Faribault. This place was created by the last legislative session.

Lake City, Minn., April 30.—John Lindgren, laborer, enroute from Detroit, Mich., to St. Paul, was killed in a fall from a passenger train near here Wednesday.

### INSTANTLY KILLED WHILE REPAIRING TIRE AT ROADSIDE

(By United Press)  
Ortonville, Minn., April 30.—Henry Baker, 49, of Big Stone City, S. D., was instantly killed near here Wednesday night when struck by an automobile while repairing a tire at the roadside. Mrs. J. R. Lewis, driver of the death car, contended that dust from a preceding automobile obstructed her view of the road. Baker was not married.

### GIRL MAY GO ON HUNGER STRIKE

#### MISS MARY MAC SWINEY ALLEG- ED TO BE WITHOUT PASSPORT

(By United Press)  
Chicago, April 30.—Miss Mary MacSwiney, arden worker for the Irish Republic and sister of the late Terrence MacSwiney, plans to go on a hunger strike if she is arrested by the federal government for coming into this country without a passport.

Before departing for Minneapolis last night for a speech in behalf of her cause, Miss MacSwiney admitted she had been questioned by immigration authorities. She said she told them she had no passport, but declared she would be able to convince the government she had not violated any of the laws. Miss MacSwiney said she felt she did not need a passport to come into the United States.

#### EXPLAINS HOW SHE CAME TO AMERICA

Minneapolis, April 30.—"You can say for me that I came to this country last January on a beam of the total eclipse," was Miss Mary MacSwiney's reply to pressing questions today as to whether she had an answer for immigration authorities. She arrived from Chicago just before noon, only to find that such tedious things as passport explanations are demanded in Minnesota, as well as in Illinois.

W. G. Nyquist from the office of Immigration Commission Seaman sent word to the well known lady from Ireland that he would like to interview her this afternoon.

Miss MacSwiney said that "of course" she had no intention of violating the laws of the United States, but that it would be simply impossible for her to accept a passport from the Irish Free State.

Wherefore, she just simply "arrived" in this country. The sister of Terrence MacSwiney, late lord mayor of Cork, tacitly admitted she had no such thing as a passport, but she is in the Twin Cities for a series of lectures and she "hasn't any notion" when she will report to the office of the immigration commissioner in Chicago as requested yesterday.

"Why, I would never accept a passport from the Irish Free State," she said emphatically. "She admitted, however, that the Irish Free State is her only country of residence and the only one that could legally give her a passport."

Reports that her sister, widow of the late lord mayor, was held in a German prison, were characterized by Miss MacSwiney as being too utterly ridiculous. She said it was true Mrs. MacSwiney was in Germany, but denied she was in prison.

#### JOB FOR THE "FLY COP" IS REPORTED

(By United Press)  
St. Paul, April 30.—Here's a job for the "fly cop."

Some one stole a pair of wings from his airplane at Wold-Chamberlain field, Ted Karnsteade, aviator, reported to police today.

Columbia University Library has added the millionth volume to its steadily growing collection. The education section is on four floors of the new building of Teachers College.

### PARRICIDE HAS NEITHER REMORSE NOR PENITENCE

#### MELLO GHILARDI, CHISHOLM BOY, ADMITS SHOOTING FATHER

#### JAILER SAYS HE REMAINS AS "COOL AS A CUCUM- BER"

(By United Press)  
Duluth, Minn., April 30.—Mello Ghilardi, Chisholm parricide, knows neither remorse nor penitence today. Frankly admitting that he shot his own father, the 20-year-old boy appeared to interviewers to have more of a spirit of elation that he had accomplished the death of his parent. As the St. Louis county jailer expressed it, Mello remains "cool as a cucumber."

"Sorry? What for?" the lad replied with a quizzical look. "Not me," he went on, with a queer little laugh.

"I got back at him good and plenty and he had it coming too," the parricide added more sternly.

Mello talked freely of the plot he laid to kill his father, Egidio Ghilardi, 40, a Chisholm village laborer. "The old man had struck and scolded me all the time," was his explanation of the motive. He related how he smuggled a shotgun into the basement of their home and how he lay in wait for his father.

"The old man was making moonshine," he went on. "I laid in wait for him and when he came down I let him have it."

"Then I went over to the body, saw that he was dead and stepped into some blood. I wiped this off and went upstairs and out to a pool hall where the police picked me up later." Mello said he thought he would have an attorney defend him. Observers believe his mind is undeveloped. He was recently under observation as an insanity suspect. His mother's mind has been affected, but it is understood she is now ready to be discharged from a state sanatorium at Willmar as cured.

The boy has been confined in correctional institutions on several occasions.

When the St. Louis grand jury meets May 12th the boy likely will be indicted for murder. He will then come to trial. Meanwhile, he is utterly indifferent.

Ida, his 15-year-old sister who disapproved the crime, is prostrated with grief at the home of her uncle in Chisholm. The elder Ghilardi was buried today.

### LIGHT FROST HITS FRUIT TREES

#### THIRD NIGHT IN SUCCESSION OF LOW TEMPERATURE IN ST. PAUL

(By United Press)  
St. Paul, April 30.—Fruit trees suffered some damage and spring growth was considerably retarded by another light frost last night, according to reports to the weather bureau. It was the third night in succession during which this section was visited by light frost.

In the northern part of the state ice formed in some places and heavy frost was reported in sections of North Dakota.

Fair weather and rising temperature promised for today was expected to bring relief from the frost danger. A storm swept central Minnesota late yesterday, carrying away telephone poles and trees in the vicinity of Paynesville. That place was cut off from outside communication.

Brookings, S. D., April 30.—Sheriff Roberts was enroute to Minneapolis today for Carl Tolevar and William Lane, arrested there on a charge of grand larceny for the theft of a car at White, S. D.

### TUG SINKS OFF GRAY'S HARBOR WITH 4 ON BOARD

(By United Press)  
Hoquian, Wash., April 30.—The tug Reba, of the Alaman-Hubble company fleet, sank today off Gray's Harbor with four men aboard. It is believed all lives were lost. The tug went to sea with the steamer Etna Maru and was returning when she was seen to sink suddenly about a mile off the entrance. The Reba was the largest tug owned by the company.

### PITCHFORK BATTLE ENDS IN DEATH OF 1

#### JULIUS HOPP NOW IN JAIL AT NICOLLET, MINN.

#### POSSESSION OF HAY STACK WAS CAUSE OF THE FIGHT

(By United Press)  
Nicollet, Minn., April 30.—Julius Hopp, 30, is in jail awaiting grand jury action for the killing of Louis Wills, 27, in a pitchfork battle for possession of a hay stack.

Hopp occupies a rented farm adjoining the Wills' property on which was a stack of hay purchased by Wills.

When the young farmer came for his hay a fight ensued, Wills stabbing with a pitchfork and Hopp clubbing a fence post.

Hopp is alleged to have struck jury action for the killing of Louis Wills on the head with the post after receiving jabs in the arms and legs from the fork. Wills died at the New Ulm hospital. He is survived by a wife and four children.

### FILLED HIM UP WITH WHISKEY AND OFFERED BRIBE

#### EARL B. CLARK SAYS SHEP- HERD'S ATTORNEY WANTED HIM TO CHANGE STORY

#### CLARK AT ONE TIME WAS AN EMPLOYEE OF FAIMAN'S UNIVERSITY

(By United Press)  
Chicago, April 30.—Earl B. Clark, an important state witness against William D. Shepherd testified today that Shepherd's attorney had "filled me up on Scotch whiskey and offered me \$5,000 to change my testimony."

Clark's testimony came at the resumption of the inquest into the death of Billy McClintock, millionaire orphan. Shepherd is accused of inoculating the youth with typhoid fever germs in an effort to obtain the McClintock \$1,000,000 estate.

"William Scott Stewart, Shepherd's attorney, met me in a newspaper office," Clark testified. "He filled me up on Scotch whiskey and then offered me \$5,000 to change my testimony."

"He said that all I needed to do was to sign an affidavit denying all I had testified to previously."

"Stewart threatened to prosecute me for an abortion if I refused, but I told him to go ahead—he didn't have anything on me."

Clark, who testified previously at the inquest, was the first witness to link Shepherd with Dr. C. C. Faiman, the dapper president of a questionable correspondence medical school. Clark was once an employee of Faiman's National University of Sciences.

As a result of Clark's testimony, Faiman was arrested and confessed giving typhoid germs to Shepherd with instructions as to how they should be administered to Billy McClintock to cause death.

### STATE OIL INSPECTOR READY FOR COLLECTIONS

#### 67 DEPUTIES ASSIGNED TO POSTS THROUGHOUT THE STATE

#### GET REPORTS FROM DISTRIBUT- ING AGENTS ON SALES AND STOCKS

(By United Press)  
St. Paul, April 30.—Minnesota's tax of 2 cents a gallon on retail sales of gasoline will go into effect at midnight tonight. Hjalmer Nelsson, chief state oil inspector, has made all arrangements for collection of the tax, he stated today.

Sixty-seven deputies have been assigned to posts throughout the state to arrange for reception of reports from distributing agents on the first day's sales and gasoline stocks on hand.

After the first day's reports none will be made until the end of each month when chief distributors will make reports of quantity sold.

Under the new law, it is anticipated the state will receive about \$4,500,000 annually. The tax will be collected without expense, the duties of collection simply being added to duties already imposed upon the staff of 67 deputy state oil inspectors.

### BANKER GIVEN CHANCE TO GET BAIL FOR RELEASE

Minneapolis, April 30.—A. H. Hendrickson, vice president of the First State bank of Little Sauk, was given an opportunity today to provide bail following his arrest on a charge of embezzlement.

The bank was closed by the state banking department and L. H. Nelson, cashier, is now serving a sentence in St. Cloud reformatory for embezzlement.

Hendrickson probably will be prosecuted in federal court when the May term opens in Fergus Falls next week. He is alleged to have manipulated funds belonging to the Federal Land bank, St. Paul. The bank had deposits of \$125,000. The exact loss to depositors had not been determined. Hendrickson's arrest is reported to involve about \$30,000.

### OIL PAINTINGS BY MINNESOTA ARTISTS

#### 25 TO BE DISPLAYED AT TEACH- ERS' COLLEGE AT ST. CLOUD

St. Cloud, April 30.—Through the courtesy of the Minnesota State Art society there is to be an exhibit of twenty-five oil paintings by two Minnesota artists, displayed at the Teachers' college here for two days next week. The exact date of the arrival of these paintings is not known today but will be announced to the public later. Anyone interested in this class of work is invited to see this exhibition in the art room of the Teachers' college.

Under direction of Miss Carrie Minich an art club was organized in the school in September of the past year. Co-operating with the American federation of art and the Minnesota state art society the club has had the privilege during the year of hearing a number of addresses on art and its application which has been very helpful, these lectures amply illustrated with pictures and slides.

On Wednesday, May 13, Miss Florence Wright, a graduate of the Teachers' college and a former member of the faculty, will lecture to the club on interior decorating. Miss Wright, during the current year, has been a member of the faculty of the Minneapolis school of art. She spent the year 1923-'24 at Columbia university, New York.—St. Cloud Daily Journal-Press.

## ARBOR DAY AT THE WHITTIER

To be Fittingly Observed at the School by Suitable Tree Planting

**PROGRAM IN SCHOOL YARD**  
Public and Especially Parents Are Invited to Attend  
Same

Arbor Day will be fittingly observed by the Whittier school on Friday afternoon, if the weather permits, with the planting of a suitable tree and the rendering of an outdoor program in the school yard, to which the public and especially the parents, are invited.

County Auditor C. W. Mahlum has generously donated the tree, a fine elm, from the Mahlum farm near Round lake, and this tree will be planted and named by the children in tomorrow's exercises.

The parent-teachers association of the Whittier school is co-operating in the program of the day, R. T. Campbell of that organization, and Miss Louise Barrett, principal of the school, forming the committee in charge of arrangements.

The program which will be given, consists of recitations and songs, the pupils from each room in the school taking part. Dr. R. A. Beise will give a talk, representing the parent-teachers association.

Miss Barrett announces that if the weather in inclement the exercises of the day will be postponed until such a time that they can be given out-of-doors.

## NEW FORD PLANT TO OPEN FRIDAY

\$10,000,000 FACTORY TO TURN OUT CARS AT RATE OF 100 PER DAY

St. Paul, April 30.—The first automobile of the \$10,000,000 St. Paul Ford plant will be turned out at 8 a. m. Friday.

The assembly lines are being fully equipped and operations will be started off with a bang promptly Friday morning.

This information was learned from the Minneapolis branch of the Ford Motor Co.

The St. Paul plant is prepared to turn out 100 cars daily. By the end of Friday the plant will have assembled 100 of these automobiles and active operations, long awaited in St. Paul, will have become a reality.

The St. Paul plant is employing 700 men at present. This force will gradually be increased as the capacity of the plant grows.

It was learned that the Minneapolis branch equipment will be moved to the St. Paul plant about June 1, although no definite date has been set. This will mean that within about a month the daily output of automobiles will amount to nearly 500.

Officials of the St. Paul Association members of the greater St. Paul committee of the Association and city officials, headed by Mayor Nelson, will comprise a general committee to officially "open" the plant.

Although no celebration has been planned this general committee has volunteered to be present when the first car is turned out.

## ARBOR DAY AT THE WHITTIER

To be Fittingly Observed at the School by Suitable Tree Planting

### PROGRAM IN SCHOOL YARD

Public and Especially Parents Are Invited to Attend Same

Arbor Day will be fittingly observed by the Whittier school on Friday afternoon, if the weather permits, with the planting of a suitable tree and the rendering of an outdoor program in the school yard, to which the public and especially the parents, are invited.

County Auditor C. W. Mahlum has generously donated the tree, a fine elm, from the Mahlum farm near Round lake, and this tree will be planted and named by the children in tomorrow's exercises.

The parent-teachers association of the Whittier school is co-operating in the program of the day, R. T. Campbell of that organization, and Miss Louise Barrett, principal of the school, forming the committee in charge of arrangements.

The program which will be given, consists of recitations and songs, the pupils from each room in the school taking part. Dr. R. A. Beise will give a talk, representing the parent-teachers association.

Miss Barrett announces that if the weather in inclement the exercises of the day will be postponed until such a time that they can be given out-of-doors.

## NEW FORD PLANT TO OPEN FRIDAY

\$10,000,000 FACTORY TO TURN OUT CARS AT RATE OF 100 PER DAY

St. Paul, April 30.—The first automobile of the \$10,000,000 St. Paul Ford plant will be turned out at 8 a. m. Friday.

The assembly lines are being fully equipped and operations will be started off with a bang promptly Friday morning.

This information was learned from the Minneapolis branch of the Ford Motor Co.

The St. Paul plant is prepared to turn out 100 cars daily. By the end of Friday the plant will have assembled 100 of these automobiles and active operations, long awaited in St. Paul, will have become a reality.

The St. Paul plant is employing 700 men at present. This force will gradually be increased as the capacity of the plant grows.

It was learned that the Minneapolis branch equipment will be moved to the St. Paul plant about June 1, although no definite date has been set. This will mean that within about a month the daily output of automobiles will amount to nearly 500.

Officials of the St. Paul Association members of the greater St. Paul committee of the Association and city officials, headed by Mayor Nelson, will comprise a general committee to officially "open" the plant.

Although no celebration has been planned this general committee has volunteered to be present when the first car is turned out.

**The Brainerd Daily Dispatch**

### Road Construction Cut in Half

Minneapolis Journal  
The Legislature has cut the good roads program for the next two years almost in half. The Highway Department, instead of having eleven millions a year to invest in new construction, will have a little more than six millions.

Has the Legislature, in taking this drastic backward step, registered the desires of the people of Minnesota? We do not think so.

The people of Minnesota on several occasions have given concrete evidence that they are strong for a pro-

gressive good roads policy. First, they amended the Constitution to make it possible to build a system of state highways. Then they backed the Legislature when it carried into effect the implicit mandate of that vote. And last November they authorized the imposition of a gasoline tax and the use of its yield for good roads purposes.

In spite of these and many other evidences that the people of Minnesota want the state system of trunk highways pushed to completion as rapidly as is consistent with sound financing, the Legislature deliberate-

ly reduces by almost one-half Mr. Babcock's resources to that end. There is bound to be a reaction against the Legislature's parsimonious policy. When various sections that are counting on early improvement of their road facilities find that the Legislature has postponed realization of their hopes, they will likely set about the sending to the Capitol in 1927 men of greater vision and more practical sense in road legislation.

"When motorists go pounding along over graveled roads that cannot be kept in condition because of

the heavy traffic, they will say to themselves:

"What do the two dollars saved on my motor vehicle tax profit me, when

roads like this take the money back every hundred miles my car travels?"

The blindness of the Legislature to the road needs of Minnesota are

likely to have opportunity a-plenty to do some appreciating. Perhaps the lesson will be worth while.

## VALUE OF GOOD WILL

IN a successful business "good will" has such a value that it cannot be estimated in exact dollars and cents. Good will is built up through courtesy, service, advertising, square dealing, prompt deliveries, satisfactory adjustments of errors, and a general desire to make a customer a friend of the house.

Without good will, a business is mere piles of machinery, heaps of merchandise. Good will does not flourish where employees take no interest in the business and act as mere automatons. When the automobile manufacturing business of the late Dodge brothers was sold recently, says the Minneapolis Journal, the single item of good will—the reputation of the house—brought \$56,000,000 over the gross price of the plant and all other assets.

How was this good will created? Chiefly by advertising. Judicious advertising, backed by a satisfying product, pays for itself many times over in profits on increased sales, and at the same time builds up an additional asset of good will that is so definite and tangible it is worth big money. In the case of the Dodge company, it was worth \$56,000,000 in cold cash! Just one more demonstration that money spent for advertising is the best investment that the producer of a needed article can possibly make.

## WORLD NEIGHBORLINESS

THE other night E. W. McQuillin was talking with a friend in another state and yesterday received a letter that a radio fan in Belgium had distinctly heard McQuillin's signals. It's a small world, after all, and our neighbors have passed beyond the ten-mile limit of the horse and buggy days.

The coming of the automobile, of telephone extension, of the radio, of the airplane, are all working to bring about harmony and understanding among America and its neighbors in the old world and the new world.

The Tower of Babel was wrecked because the workers used so many languages that the foremen in charge were misunderstood. The nations of the world will build up a friendly feeling and the idea of brotherhood by improving their methods of communication.

Nations in thorough accord and understanding, like the U. S. A. and Canada, have no need of forts and standing armies and frowning ships along a frontier line.

## TROUBLE INCURRED MAKING LAWNS

MORE difficult than raising flowers is the arduous work incurred in bringing a lawn to a high degree of perfection. First comes the expensive bed to be prepared, the seeding, the cutting and care thereafter.

The householder contends with his natural enemies, dogs, cats and chickens. Especially difficult is it to sustain a lawn in the strip between walk and curbing. Here one finds a species of Brainerd citizen who delights to shortcut over such verdure and whose steady tramp soon makes a brown patch in the lawn and destroys it. The genus of lawn despoilers has no specified age, ranging from small children, to school children and grownups. A well-kept lawn is an improvement to any property, but a well-trampled lawn is an eyesore and depreciates property values and reverts its citizenship back to the days when cowpaths and not sidewalks formed the lines of pedestrian travel.

## COOPERATIVE ADVERTISING

THE growing tendency of cooperative organizations to adopt advertising practices found profitable in ordinary business is discussed in a bulletin, No. 185, recently issued by the North Dakota Experiment station and is entitled, "Advertising Farm Products by Farmers in Farm Organizations," and written by Alva H. Benton.

Prominence is given a reproduction of the Minnesota Potato Growers Exchange's advertising of its Gopher State Brand of potatoes. Mention was made of the copyrighted trademark and the endeavor to establish a high standard in the matter of grade and quality.

## DEFENDING THE NEWSPAPER

WHEN newspapers cease publication, rumors flourish. And that gives rise to the axiom that a bad newspaper is better than a bad rumor. Newspapers are chary about publishing rumors, and if they are given publicity, they are definitely tagged as rumors. News published is news that has been verified.

Various newspapers have tried the plan of leaving out crime news to oblige some of their subscribers, and have found that more people favor printing crime news than suppressing such news.

"SOMETHING abnormal about this weather. Never seen anything like it before," said Jeff Saunders of Backus, as he was in town the other day. Jeff has seen lots of weather, but nothing to equal the fluctuations of this spring. He hopes it will come out all right in the end.

HENRY S. VAN FLEET, who for 65 years published the New York Clipper, a former weekly theatrical publication, died at his home in his 100th year. The average editor never lives that long. Specializing in theatrical news must be conducive to longevity.

GOOD securities always find a ready market. The Minnesota & Ontario Paper Co., an enterprise controlled by the Backus-Brooks interests, sold a \$16,000,000 bond issue to a group of Minneapolis and Chicago capitalists.

WE wonder if the Hindenburg political lines will hold any better than the ones he established in the last war.

THE cooperative marketing of diversified crops should spell prosperity for the farmer.

ABRAHAM LINCOLN said, "I like to see a man proud of the place he lives in."

## MINNESOTA WEEKLY INDUSTRIAL REVIEW

Verndale—Verndale Creamery Association paid 51 cents per pound for butterfat during February.

Minneapolis—Modern Woodmen of America to erect \$52,000 2-story building on West Broadway.

Tests made in Iowa show that auto traffic gets 14-ton miles per gallon of gas on dirt roads, 21 on gravel roads, and 31 on paved roads. A cost of \$303 per mile for maintaining gravel roads per year, as against \$89 per mile for pavement, has determined the paving of the Lincoln Highway across the state.

Duluth experiencing building boom.

Winona—Four-story addition to be built to National hotel.

Minneapolis—National Tea Company purchases site for erection of \$150,000 warehouse and bakery.

Winona—Excavation work begun on new factory of Peerless Chain Company.

Total of 63,206,934 bbls. fuel oil consumed by locomotives in U. S. in 1924, compared with 58,095,295 bbls. in 1923.

February building contracts in Minnesota totaled \$4,105,100, 10 per cent increase over January.

Minneapolis—Plans under way for construction of \$1,000,000 Northrup auditorium at University of Minnesota.

Clarissa—City park to be improved.

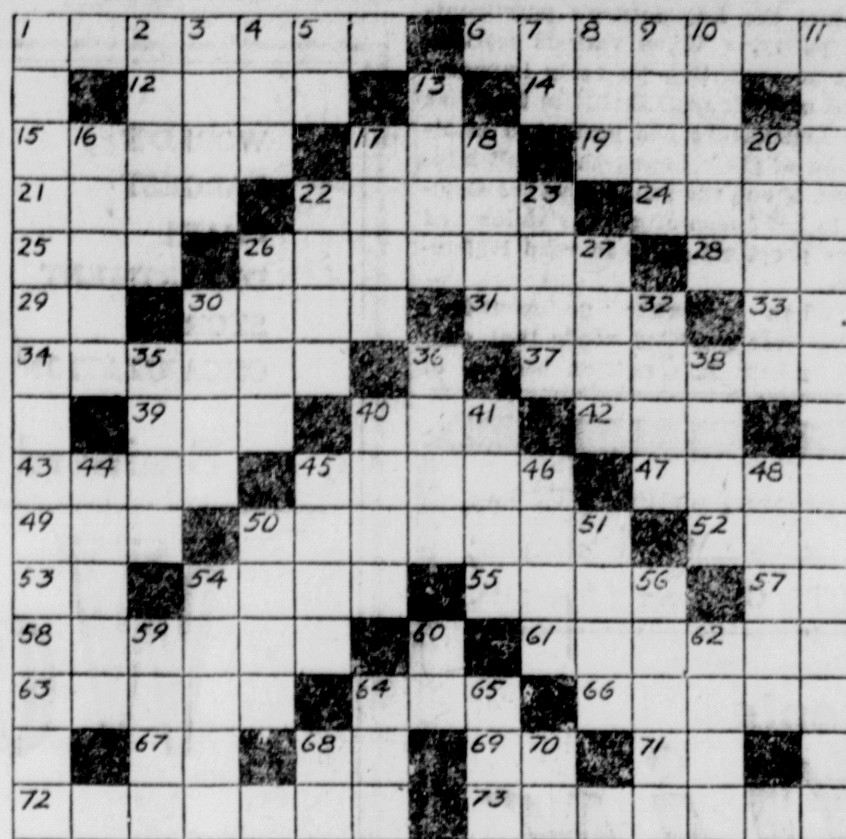

Aluminum production in the United States for 1924 was worth \$37,697,000, an increase of almost one-third over the 1923 value. Prices have run steadily from 27 to 29 cents a pound. The use of cheaper pressed steel instead of aluminum for automobile parts has cut the domestic demand somewhat.

Biwabik—Jausola building being remodeled.

Minneapolis—\$270,000 apartment building to be erected at Park avenue and Twenty-eighth street.

Lively's Ford repair department use only genuine Ford parts, sold at Ford prices.

## VALUE OF GOOD WILL

In a successful business "good will" has such a value that it cannot be estimated in exact dollars and cents. Good will is built up through courtesy, service, advertising, square dealing, prompt deliveries, satisfactory adjustments of errors, and a general desire to make a customer a friend of the house.

Without good will, a business is mere piles of machinery, heaps of merchandise. Good will does not flourish where employees take no interest in the business and act as mere automatons. When the automobile manufacturing business of the late Dodge brothers was sold recently, says the Minneapolis Journal, the single item of good will—the reputation of the house—brought \$56,000,000 over the gross price of the plant and all other assets.

How was this good will created? Chiefly by advertising. Judicious advertising, backed by a satisfying product, pays for itself many times over in profits on increased sales, and at the same time builds up an additional asset of good will that is so definite and tangible it is worth big money. In the case of the Dodge company, it was worth \$56,000,000 in cold cash! Just one more demonstration that money spent for advertising is the best investment that the producer of a needed article can possibly make.

## WORLD NEIGHBORLINESS

THE other night E. W. McQuillin was talking with a friend in another state and yesterday received a letter that a radio fan in Belgium had distinctly heard McQuillin's signals. It's a small world, after all, and our neighbors have passed beyond the ten-mile limit of the horse and buggy days.

The coming of the automobile, of telephone extension, of the radio, of the airplane, are all working to bring about harmony and understanding among America and its neighbors in the old world and the new world.

The Tower of Babel was wrecked because the workers used so many languages that the foremen in charge were misunderstood. The nations of the world will build up a friendly feeling and the idea of brotherhood by improving their methods of communication.

Nations in thorough accord and understanding, like the U. S. A. and Canada, have no need of forts and standing armies and frowning ships along a frontier line.

## TROUBLE INCURRED MAKING LAWNS

MORE difficult than raising flowers is the arduous work incurred in bringing a lawn to a high degree of perfection. First comes the expensive bed to be prepared, the seeding, the cutting and care thereafter.

The householder contends with his natural enemies, dogs, cats and chickens. Especially difficult is it to sustain a lawn in the strip between walk and curbing. Here one finds a species of Brainerd citizen who delights to shortcut over such verdure and whose steady tramp soon makes a brown patch in the lawn and destroys it. The genus of lawn despoilers has no specified age, ranging from small children, to school children and grownups. A well-kept lawn is an eyesore and depreciates property values and reverts its citizenship back to the days when cowpaths and not sidewalks formed the lines of pedestrian travel.

## COOPERATIVE ADVERTISING

THE growing tendency of cooperative organizations to adopt advertising practices found profitable in ordinary business is discussed in a bulletin, No. 185, recently issued by the North Dakota Experiment station and is entitled, "Advertising Farm Products by Farmers in Farm Organizations," and written by Alva H. Benton.

Prominence is given a reproduction of the Minnesota Potato Growers Exchange's advertising of its Gopher State Brand of potatoes. Mention was made of the copyrighted trademark and the endeavor to establish a high standard in the matter of grade and quality.

## DEFENDING THE NEWSPAPER

WHEN newspapers cease publication, rumors flourish. And that gives rise to the axiom that a bad newspaper is better than a bad rumor. Newspapers are chary about publishing rumors, and if they are given publicity, they are definitely tagged as rumors. News published is news that has been verified.

Various newspapers have tried the plan of leaving out crime news to oblige some of their subscribers, and have found that more people favor printing crime news than suppressing such news.

"SOMETHING abnormal about this weather. Never seen anything like it before," said Jeff Saunders of Backus, as he was in town the other day. Jeff has seen lots of weather, but nothing to equal the fluctuations of this spring. He hopes it will come out all right in the end.

HENRY S. VAN FLEET, who for 65 years published the New York Clipper, a former weekly theatrical publication, died at his home in his 100th year. The average editor never lives that long. Specializing in theatrical news must be conducive to longevity.

Good securities always find a ready market. The Minnesota & Ontario Paper Co., an enterprise controlled by the Backus-Brooks interests, sold a \$16,000,000 bond issue to a group of Minneapolis and Chicago capitalists.

WE wonder if the Hindenburg political lines will hold any better than the ones he established in the last war.

THE cooperative marketing of diversified crops should spell prosperity for the farmer.

ABRAHAM LINCOLN said, "I like to see a man proud of the place he lives in."

## MINNESOTA WEEKLY INDUSTRIAL REVIEW

Minneapolis—New Franklin junior high school dedicated.

Winona—Plans under way for extending water system to Sugar Loaf. Royalton—\$3,000,000 Minnesota Light & Power Co. plant at Blanchard rapids opened.

Minneapolis—18-mile paving program to start.

Elk River—Tile plant of Elk River Concrete Products Co. to be put in operation.

International Falls—Burton department store completely remodeled.

Winona—Work of top-surfacing tourist camp on Latch island with cinders and ashes, to be resumed.

Bertha—Creamery to erect addition.

Alexandria—Highway to Government Point to be put in shape.

Minneapolis—New oil station to be erected at Lake street and Thirty-fifth avenue.

Sauk Rapids—Sewer system to be installed.

International Falls—First Baptist church rapidly nearing completion.

Strandquist—State Bank of Strandquist, new institution, to open soon.

Sauk Rapids—New filling station to be erected on Broadway.

Minneapolis—Additional floor to be built at public library.

Winona—Playground to be built in Lake park.

Willmar—Great Northern Railway to spend \$200,000 on division improvements.

Hibbing—Work under way on double-tracking Great Northern railroad between this place and Kelly Lake.

New Ulm—State Bank of New Ulm to erect new banking home on Minnesota street.

Stillwater offers site for proposed \$1,500,000 general hospital to be erected in Minnesota by Veterans' Bureau.

Verndale—Verndale Creamery Association paid 51 cents per pound for butterfat during February.

Minneapolis—Modern Woodmen of America to erect \$52,000 2-story building on West Broadway.

Tests made in Iowa show that auto traffic gets 14-ton miles per gallon of gas on dirt roads, 21 on gravel roads, and 31 on paved roads. A cost of \$303 per mile for maintaining gravel roads per year, as against \$89 per mile for pavement, has determined the paving of the Lincoln Highway across the state.

## LIVELY AUTO COMPANY

### PRAISES PLANT

#### EFFICIENCY SHOWN

Much Has Been Done by Northern States Power Co. to Improve Gas Plant

#### BETTER GAS NOW OFFERED

New Cheaper Rate and Guaranteed Continued Service Draws Many New Customers

Wheelock Whitney, of St. Cloud, who was active in the management of the Brainerd Gas Company under the old management, looked over the present situation and stated that much has been done by the Northern States Power Company system to improve the mechanical side in the plant and distribution system, and as to public policy, in restoring good will and confidence. Much has already been done," he says.

"The works is turning out better gas at a greater rate and better quality than the old management was ever able to do. The Minneapolis engineers have found faults and conditions that we never realized existed, they have installed instruments which show truly and accurately just what kind and quality of gas is being made, which is something that we seldom knew in past days. With the new rate, the absolute guarantee of continued service, and the high standard of service which is now being maintained, the people of Brainerd should not wait long to take advantage of the convenience and economy of gas, for cooking and water heating and certainly no industry will be turned away from Brainerd on account of a high gas rate."

"Many people are coming in to the office every day," said Lothrop Dow, at the local office. "We find that they all want service but hesitate on account of bad experiences in the past. High bills that the former company sent them are still remembered, but when we assure them that with the high heat value and high flame temperature gas now sold, and with the cut in rates, that they may not fear any exorbitant bills, they ask for immediate connections. Some people have recently bought oil or wood ranges, and do not feel able to give them up after using them for so short a time. While we cannot give them the full value of such equipment, we can almost always make a suitable allowance, and sell their range for use in a summer cottage, or in some town where there is no gas. We are always willing to return any amount we make on such a deal. Even quite an old stove or range has some value."

"The customers now on the lines are frequently in. They tell us that they have already realized a reduction in their bills that is due to the better and hotter gas supplied in February and March. The only high bill complaints that we have had in February and March have been due entirely to inaccurate meter readings and the customer has been satisfied in all cases. If the gas is used in good quality appliances, such as copper coil water heaters and ranges made by reputable manufacturers, no one is going to be dissatisfied with the bills we send them."

### SOOTHING SAVAGE BREAST

Cello of Pasmore Trio Fascinated Frogs, Violin Charmed Blue-Jays and Pet Squirrel

Two rather interesting experiences in the lives of the Pasmore Trio, who appear in the final Musical club concert May 3 at the Park theatre:

That music "hath charms to soothe the savage beast" is a well known fact among musicians, the Pasmore Trio having had exceptional demonstrations in this line. In practicing in the woods one summer, the cellist had a devoted circle of frogs which gathered around the peg of her instrument, listening for hours at a time, while her sister fascinated blue-jays and a pet squirrel with the violin.

Before landing in Honolulu, the trio was assured that centipedes never enter houses. The first evening that they started to play, after a few bars, a huge specimen of this hundred legged variety glided swiftly from the door to the chairs the young ladies lost no time in mounting; while another was lured from its hiding place behind a picture. Shortly afterward, during a piano recital, the audience was amazed when the pianist stopped short, brushed something from the keyboard, then jumped from the bench and tempermentally stamped on the floor! One word, "centipede" explained all and when the applause had finally subsided the plucky player continued with the program.

#### Nature's Kindness

Asked by her school teacher to describe the backbone, a schoolgirl said: "The backbone is something that holds up the head and ribs and keeps one from having legs clear up to the neck."—Boston Transcript.

#### Odd Use for Taxicabs

Congestion on the sidewalks of Paris has become so great that many are forced to use taxicabs to get around the crowds.

#### The Latest Need

Now is the time for somebody to step up and invent a permanent shave.

### Banking for the People

COPYRIGHT 1924 HARVEY BLODGETT

#### A Banking Problem Frankly Stated

ONE of the greatest problems in banking, as in other lines of business, is that of making a profit for stockholders.

In no other line is such a large percentage of business transacted at an actual loss. Large numbers of depositors, whose voluminous transactions are a source of expense to the bank, do not carry balances sufficient to repay the cost of handling their accounts.

Every check drawn by a depositor incurs expense.

Checks drawn on out-of-town banks must be collected; meanwhile depositors often check against these items, the bank advancing funds not yet received. Such deposits, however, are credited only subject to collection.

Of course, depositors with small balances do not intentionally inflict loss upon their bank. Possibly banks have been at fault for not presenting the facts candidly to them.

These depositors willingly concede

a profit on their transactions with merchants.

A bank is just as much entitled to profit on its business turnover.

Bank overhead is necessarily large. Expensive quarters must be maintained. Taxes are always heavy. Officers and clerical staff necessitate a large salary list. Insurance of various kinds requires cash premiums. Expenditures for stationery are high. Maintenance of adding machines and other mechanical equipment is a constant expense.

Interest on time deposits—one of the bank's heaviest expenses—runs into large figures.

And stockholders reasonably expect dividends on their contribution to the bank's capital.

Therefore every bank depositor should maintain a balance that will insure the bank a profit on his account. Ask an officer what your bank considers a fair balance.

THE FIRST NATIONAL BANK OF BRAINERD

### NEW METHOD TO

#### RAISES FINANCES

Crow Wing Council, Boy Scouts, Anxious to Complete Raising 1925 Budget

#### LIONS CLUB IS TO ASSIST

Under New Plan Everyone Given a Chance to Invest a Dollar in Scout Movement

The Crow Wing council, Boy Scouts of America, has decided upon a new method of completing its drive for funds with which to carry out its 1925 program, and the Lions club at its luncheon Wednesday evening voted to assist in this drive, in the hope of finishing it this week.

Cards have been printed which will be sold at one dollar each, and will entitle the holder to membership in the local organization. The drive heretofore has been limited to the downtown section, principally to the business men. Under the new plan everyone will be given an opportunity to invest in the Scout movement to the extent of one dollar.

Scout Executive S. S. Shaver assisted the Lions by blocking the city into districts, and doing much other preliminary work, and it is felt that there will be little difficulty in selling the cards, which is really an investment of one dollar in the boys of this vicinity, in whom the whole city is very much interested.

Mr. Shaver explained to the Lions that Scouting in Brainerd is going forward by leaps and bounds, faster even than the council had anticipated, and faster than it can be handled with present finances. Three new troops are in the process of organization, each of the three voluntarily making application for membership in the local council.

Parents of the boys are taking a greater interest than ever before in Scouting, it is said, the reason given being that their boys are showing the good results of the Scout training.

ing, their interests lying there instead of in channels where no good benefits are to be derived.

The Lions club asks that the public enter into this dollar investment in boyhood, with enthusiasm, and respond to the call by having the dollar ready when members of the club call.

#### "EAT AND GROW FAT"

Also "Eat and Grow Thin" Cooking Formulas Discussed at Cooking School

Today's class at the Northern States Power Company's cooking school in the Brainerd Gas Company's office was attended by more women than any of the previous lessons. Miss Bell's formulas "Eat and grow fat; eat and grow thin" were especially well received, and many trim figures may be expected to be seen shortly. Miss Bell explains that it is merely a matter of what you eat making you what you are.

Mr. Gillilan who has been aiding Miss Bell explained the workings, economics, and convenience of regulated oven cooking, and exhibited an entire meal, roast, potatoes, beans, onions and a stewed fruit dessert, which was cooked in the oven at the same time.

The following recipes have been given by Miss Bell at previous classes:

#### Three Minute Cake

1-3 cup butter, 2 eggs, 3 teaspoons full baking powder, ½ teaspoon full cinnamon, 1-3 cup brown sugar, ½ cup milk, ½ cup raisins, 1-3-4 cup flour. Put all ingredients in a bowl and beat all together for three minutes, bake in a moderate oven for 45 minutes. Miss Bell states that this cake is quickly made for the unexpected caller who arrives when the cake box is empty.

#### Oatmeal Drop Cookies

1 cup sugar, 1-3 cup shortening, ½ cup sour milk, 1 cup raisins, 1 teaspoon soda, 2 cups flour 2 cups oatmeal, 2 eggs, 1 teaspoon baking powder, 1 teaspoon cinnamon, ½ cup nut

### PRaises PLANT

#### EFFICIENCY SHOWN

Much Has Been Done by Northern States Power Co. to Improve Gas Plant

#### BETTER GAS NOW OFFERED

New Cheaper Rate and Guaranteed Continued Service Draws Many New Customers

Wheelock Whitney, of St. Cloud, who was active in the management of the Brainerd Gas Company under the old management, looked over the present situation and stated that much has been done by the Northern States Power Company system to improve the mechanical side in the plant and distribution system, and as to public policy, in restoring good will and confidence. Much has already been done," he says.

"The works is turning out better gas at a greater rate and better quality than the old management was ever able to do. The Minneapolis engineers have found faults and conditions that we never realized existed, they have installed instruments which show truly and accurately just what kind and quality of gas is being made, which is something that we seldom knew in past days. With the new rate, the absolute guarantee of continued service, and the high standard of service which is now being maintained, the people of Brainerd should not wait long to take advantage of the convenience and economy of gas, for cooking and water heating and certainly no industry will be turned away from Brainerd on account of a high gas rate."

"Many people are coming in to the office every day," said Lothrop Dow, at the local office. "We find that they all want service but hesitate on account of bad experiences in the past. High bills that the former company sent them are still remembered, but when we assure them that with the high heat value and high flame temperature gas now sold, and with the cut in rates, that they may not fear any exorbitant bills, they ask for immediate connections. Some people have recently bought oil or wood ranges, and do not feel able to give them up after using them for so short a time. While we cannot give them the full value of such equipment, we can almost always make a suitable allowance, and sell their range for use in a summer cottage, or in some town where there is no gas. We are always willing to return any amount we make on such a deal. Even quite an old stove or range has some value."

"The customers now on the lines are frequently in. They tell us that they have already realized a reduction in their bills that is due to the better and hotter gas supplied in February and March. The only high bill complaints that we have had in February and March have been due entirely to inaccurate meter readings and the customer has been satisfied in all cases. If the gas is used in good quality appliances, such as copper coil water heaters and ranges made by reputable manufacturers, no one is going to be dissatisfied with the bills we send them."

### SOOTHING SAVAGE BREAST

Cello of Pasmore Trio Fascinated Frogs, Violin Charmed Blue-Jays and Pet Squirrel

Two rather interesting experiences in the lives of the Pasmore Trio, who appear in the final Musical club concert May 3 at the Park theatre: That music "hath charms to soothe the savage beast" is a well known fact among musicians, the Pasmore Trio having had exceptional demonstrations in this line. In practicing in the woods one summer, the cellist had a devoted circle of frogs which gathered around the peg of her instrument, listening for hours at a time, while her sister fascinated blue-jays and a pet squirrel with the violin.

Before landing in Honolulu, the trio was assured that centipedes never enter houses. The first evening that they started to play, after a few bars, a huge specimen of this hundred legged variety glided swiftly from the door to the chairs the young ladies lost no time in mounting; while another was lured from its hiding place behind a picture. Shortly afterward, during a piano recital, the audience was amazed when the pianist stopped short, brushed something from the keyboard, then jumped from the bench, and tempermentally stamped on the floor! One word, "centipede" explained all and when the applause had finally subsided the plucky player continued with the program.

#### Nature's Kindness

Asked by her school teacher to describe the backbone, a schoolgirl said: "The backbone is something that holds up the head and ribs and keeps one from having legs clear up to the neck."—Boston Transcript.

#### Odd Use for Taxicabs

Congestion on the sidewalks of Paris has become so great that many are forced to use taxicabs to get around the crowds.

#### The Latest Need

Now is the time for somebody to step up and invent a permanent shave.

## Banking for the People

COPYRIGHT 1924 HARVEY BLODGETT

### A Banking Problem Frankly Stated

ONE of the greatest problems in banking, as in other lines of business, is that of making a profit for stockholders.

In no other line is such a large percentage of business transacted at an actual loss. Large numbers of depositors, whose voluminous transactions are a source of expense to the bank, do not carry balances sufficient to repay the cost of handling their accounts.

Every check drawn by a depositor incurs expense.

Checks drawn on out-of-town banks must be collected; meanwhile depositors often check against these items, the bank advancing funds not yet received. Such deposits, however, are credited only subject to collection.

Of course, depositors with small balances do not intentionally inflict loss upon their bank. Possibly banks have been at fault for not presenting the facts candidly to them.

These depositors willingly concede

a profit on their transactions with merchants.

A bank is just as much entitled to profit on its business turnover.

Bank overhead is necessarily large. Expensive quarters must be maintained. Taxes are always heavy. Officers and clerical staff necessitate a large salary list. Insurance of various kinds requires cash premiums. Expenditures for stationery are high. Maintenance of adding machines and other mechanical equipment is a constant expense.

Interest on time deposits—one of the bank's heaviest expenses—runs into large figures.

And stockholders reasonably expect dividends on their contribution to the bank's capital.

Therefore every bank depositor should maintain a balance that will insure the bank a profit on his account. Ask an officer what your bank considers a fair balance.

THE FIRST NATIONAL BANK OF BRAINERD

### NEW METHOD TO

#### RAISES FINANCES

Crow Wing Council, Boy Scouts, Anxious to Complete Raising 1925 Budget

#### LIONS CLUB IS TO ASSIST

Under New Plan Everyone Given a Chance to Invest a Dollar in Scout Movement

The Crow Wing council, Boy Scouts of America, has decided upon a new method of completing its drive for funds with which to carry out its 1925 program, and the Lions club at its luncheon Wednesday evening voted to assist in this drive, in the hope of finishing it this week.

Cards have been printed which will be sold at one dollar each, and will entitle the holder to membership in the local organization. The drive heretofore has been limited to the downtown section, principally to the business men. Under the new plan everyone will be given an opportunity to invest in the Scout movement to the extent of one dollar.

Scout Executive S. S. Shaver assisted the Lions by blocking the city into districts, and doing much other preliminary work, and it is felt that there will be little difficulty in selling the cards, which is really an investment of one dollar in the boys of this vicinity, in whom the whole city is very much interested.

Mr. Shaver explained to the Lions that Scouting in Brainerd is going forward by leaps and bounds, faster even than the council had anticipated, and faster than it can be handled with present finances. Three new troops are in the process of organization, each of the three voluntarily making application for membership in the local council.

Parents of the boys are taking a greater interest than ever before in Scouting, it is said, the reason being that their boys are showing the good results of the Scout training.

ing, their interests lying there instead of in channels where no good benefits are to be derived.

The Lions club asks that the public enter into this dollar investment in boyhood, with enthusiasm, and respond to the call by having the dollar ready when members of the club call.

#### "EAT AND GROW FAT"

Also "Eat and Grow Thin" Cooking Formulas Discussed at Cooking School

Today's class at the Northern States Power Company's cooking school in the Brainerd Gas Company's office was attended by more women than any of the previous lessons. Miss Bell's formulas "Eat and grow fat; eat and grow thin" were especially well received, and many trim figures may be expected to be seen shortly. Miss Bell explains that it is merely a matter of what you eat making you what you are.

Mr. Gillilan who has been aiding Miss Bell explained the workings, economics, and convenience of regulated oven cooking, and exhibited an entire meal, roast, potatoes, beans, onions and a stewed fruit dessert, which was cooked in the oven at the same time.

The following recipes have been given by Miss Bell at previous classes:

#### Three Minute Cake

1-3 cup butter, 2 eggs, 3 teaspoons full baking powder, ½ teaspoon full cinnamon, 1 1-3 cup brown sugar, ½ cup milk, ½ cup raisins, 1 3-4 cup flour. Put all ingredients in a bowl and beat all together for three minutes, bake in a moderate oven for 45 minutes. Miss Bell states that this cake is quickly made for the unexpected caller who arrives when the cake box is empty.

#### Oatmeal Drop Cookies

1 cup sugar, 1-3 cup shortening, ½ cup sour milk, 1 cup raisins, 1 teaspoon soda, 2 cups flour 2 cups oatmeal, 2 eggs, 1 teaspoon baking powder, 1 teaspoon cinnamon, ½ cup nut

## LEGS AS SEEN ON THE AVENUE, NEW YORK CITY

NEVER IN HISTORY OF FASHIONS  
HAVE SKIRTS BEEN  
SO SHORT

WOMEN IN THIRTIES, FORTIES  
AND FIFTIES SHOW  
KNEECAPS

By HEDDA ROYT  
(Fashion Editor of the United Press)  
(Written for the United Press)  
New York, N. Y., April 30.—Half  
a leg! Half a leg! Half a leg up-  
wards!

Never in the history of fashions  
have skirts been so short as they are  
this spring on Fifth Avenue. Every-  
one is wearing them shorter and  
some women are going to extremes  
which have never before been dared.

It isn't the young girls who are  
showing their kneecaps. Its women  
in their thirties, women in their for-  
ties and fifties! Evidently they  
hope to attain the appearance of  
youth by displaying their knee dim-  
ples.

But alas! Not all of them have  
dimpled knees. Flo Ziegfeld once  
said that it was difficult to find beau-  
tiful girls with beautiful legs, as  
most American girls were bowlegged.  
After witnessing Easter's fashion  
parade, we might add that American  
women are not only bowlegged, but  
many of them have ankles that sag  
inwards; ankles that bow outwards  
and knots on their knees. In spite  
of the prevalence of mismated and  
bandy legs, nearly every woman be-  
lieves that her legs are beautiful.  
Just one word from Paris and up go  
the skirt lengths!

Looking in a Mirror  
Just a little word on the skirt  
question. Be sure your legs are  
lovely before thrusting them on the  
public! Take a look in a long mir-  
ror!

Perhaps the legs are all right, but  
do they conform with the breadth of  
your hips? In other words, do you  
look like a fat tadpole walking on  
slender stilts? If your cheeks are  
beginning to sag, be content with  
skirts that extend to the calf of the  
leg at least! Somehow a kneecap  
that's shapely mismates with sagging  
jowls. Perhaps Mistinguett, who con-  
fesses to over fifty summers and to  
having the prettiest legs in Paris, is  
responsible for the leg-display by  
elderly women in America. Seen  
from footlights, Mistinguett's legs  
were lovely indeed, but many a little  
half-baked flapper has equally pretty  
legs and doesn't draw a fat salary  
on their account.

There's a certain attraction about  
beautiful legs, to be sure. But on  
the streets of New York one sees a  
lot of elderly flappers who are con-  
cealing their varicose veins under  
flesh-toned hosiery. I believe it was  
Benjamin Franklin who wrote that  
a woman's legs were the last of her  
attractions to age. Judging from  
some of the legs one sees, one would  
say that there are a good many cen-  
tenarians running about.

Today finds the 8-year-old wearing  
skirts about twelve inches from the  
ground. The 28-year-old woman  
wears her's two or three inches be-  
low the knees. And the 38-year-old  
wears kneelengths. Of course, there  
are a few ladies left who believe that  
a leg is something to walk on—that  
a garter is something to be conceal-  
ed. They know that oyster white,  
blond or flesh-toned hosiery is  
"loud" for streetwear and makes legs  
look more important than the person  
wearing them. Wood shades, tans,  
grays and shades that correspond  
with the frock are far better hosiery  
colors than conspicuous ones.

Shoes and Hosiery  
The most refined women in New  
York are wearing black shoes with  
mouse-gray, light tan, cinnamon or  
light brown hosiery, or they are  
wearing light brown, tan or gray  
shoes with matching hosiery. With  
these colors one may display an extra  
inch or two of leg without drawing  
a crowd.

Plainer shapes prevail in shoes and  
often the simple pump is worn with  
an orange frock. Cut-out effects in  
shoes are chosen only by a few.  
Vamps might be called semi-short—  
they are neither long nor short, but  
rounded and medium. Heels are not  
extremely high, but are halfway be-  
tween the Cuban and the French  
heel.

Blond shoes worn with blond hosi-  
ery are popular for dressy afternoon  
occasions. Some women wear them  
on the streets, but if worn so, they  
should conform with the frock and  
not add contrast. The blond shoe is  
distinctly a dress shoe. Suede or  
kid, however, in light shades the  
suitable for street wear, when one  
prefers light colored shoes.

### Plant for Continuous Bloom

The ideal flower garden is one con-  
tinual sheet of bloom from May until  
frost, but this is an ideal difficult to  
obtain. However, with a careful se-  
lection of annuals and early planting,  
a continuous sheet of bloom increas-  
ing in brilliancy may be secured with-  
out great difficulty from mid-June un-  
til frost.

Several of the most brilliant annu-  
als have short and early or short and  
late seasons of bloom, the poppies be-  
ing an example of the former and the  
asters of the latter. Of all-season  
standbys, stocks, marigolds, petunias  
and verbenas offer a good selection.  
They come into bloom in two months  
or even sooner from seed, and each  
succeeding week produce more bloom  
until cut down by frost.

Properly placed about the garden  
groups of these useful annuals will  
make a sufficiently brilliant show to  
give the appearance of continuous  
bloom throughout the season. The  
French marigolds are one of the first  
to come into bloom, spinning up to a

bud very early in the season and then  
continuing to branch and produce  
more flowers. The verbenas send out  
runners and thus multiplies its bloom-  
ing surface. The petunias branch and  
spread out, producing scores of bloom,  
fragrant particularly at nightfall. The  
stocks are compact growers, throwing  
up a continual succession of bloom  
spikes.

The zinnias, coming into their full  
glory a little later than these annuals,  
make up in speed and brilliancy of  
colors for delay in developing, as the  
colossal types make big bushes by fall.  
They may be counted on for a magnifi-  
cent display from mid-July on.

By sowing annual poppies even be-  
fore frost is out of the ground, the  
display of annuals will begin in May  
and the poppies may be pulled up as  
they begin to flag and other annuals  
transplanted into their places.

Sweet alyssum as an edging plant  
comes into bloom early and is one of  
the last to yield to frost.

### FOREST MANAGEMENT AND FOREST CROPS

By DR. RAPHAEL ZON  
Director, Lake State Experiment  
Station

Charred stumps and bleaching  
snags, the land a liability to the  
owners or a forest property earning  
an annual income. That is the dif-  
ference between treating a forest as  
a mine instead of applying the fun-  
damental principles of forest manage-  
ment and growing trees as a forest  
crop, said Dr. Raphael Zon, Direc-  
tor of the Lake States Forest Experi-  
ment Station, in a recent interview  
on this subject. In the Lake States  
there is a vast amount of land that  
can never be utilized to grow agri-  
cultural crops and for this reason  
forest management and forest crops  
should be a subject of vital interest  
to the people here. It is the only  
source of our future supplies of wood  
and if Uncle Sam is to maintain his  
economic independence in war or  
peace, we, his people, must recognize  
that the forest business must take  
its place among the leading indus-  
tries of the country.

Let us contrast the conditions of a  
timber-mined forest property, the  
custom of today, and a forest prop-  
erty on which the trees are grown  
as a crop under proper management.

An owner has a large tract of jack  
pine forest in northern Minnesota  
and plans to erect a pulp mill to  
utilize the trees on the area for mak-  
ing pulp. He gives no thought to  
the future, his idea merely being to  
cut off the trees as rapidly as he can.  
He builds his pulp mill at a great  
expense, constructs roads in the for-  
est, invests considerable capital in  
camp equipment, and starts logging  
operations. A small town literally  
springs up over night around the  
mill; stores, hotels, and other places  
of business are started; schools are  
built and soon the town develops in-  
to a thriving community. For a  
time all goes well, everybody is hap-  
py, and things look progressive and  
prosperous, but soon a dark cloud  
appears in the sky. The timber  
which is to supply the mill no longer  
seems inexhaustible and the mill can  
no longer run every day but must

shut down for short periods. Even  
before the last stick is cut, the own-  
er realizes that he should have had  
a little more foresight and consid-  
ered the possibility of growing trees  
as a crop rather than treating the  
forest as a mine. When the end  
does come, he must abandon his mill  
and other equipment at a great loss,  
his employees are thrown out of  
work, and with no source of income  
they must forsake their homes. You  
suggest that they use the land for  
farming. If only they could, this  
would be one solution of the problem  
but they have no capital to clear the  
land, and if they did, they would  
find it quite impossible to grow suf-  
ficient agricultural crops even to ex-  
ist on an existence for the soil is only  
suited to grow trees.

Timber mining, like the four  
horsemen, leaves in its wake charred  
stumps, bleaching snags, wrecked  
homes and abandoned mills.

In a forest business, just as in  
farming, the main idea or goal to  
strive for is to have a crop to har-  
vest each year. To accomplish this,  
the forest manager of course must  
have some systematic plan of man-  
agement so he knows just what he

is doing, and how it affects the fu-  
ture of his forest.

Let us pay a visit to one of these  
wood farms. We would look up the  
forest manager and first we would  
ask him general questions about the  
business. He would show us his  
plan of management and tell us that  
the company had 60,000 acres of jack  
pine which they were handling so  
they could be assured of 45,000 cords  
of pulpwood each year continuously.

"How do you know that you can  
do this indefinitely?" we ask.

"If you had \$5,000 in the bank  
and were receiving 4 per cent inter-  
est on it and only used this \$200 a  
year, wouldn't you always have an  
income of that amount each year?  
Well, that is just the situation here  
in our forest. Our money instead of  
being in the bank is invested here  
in growing trees, and the wood they  
grow is our interest. We only cut  
what grows each year so we can ex-  
pect to harvest that much just as  
long as we handle the forest prop-  
erly. At present, we have about 900,  
000 cords of wood capital which pro-  
duces annually the 45,000 cords  
needed by our pulp mill. Of course,  
we can't take this growth of 45,000  
cords that occurs in any one year  
from the trees on which it actually  
grows. That would not only be im-  
practical but unwise because much  
of it occurs on young trees that are  
not yet ripe to cut and are still  
growing rapidly. What we do is to  
cut a quantity of ripe wood that is  
equal to the growth on the entire  
area.

"Just how do you do that?"  
"We know that in our forest here,  
jack pine reaches a size suitable for  
pulpwood in about 40 years. We  
cut 1-40 of our 60,000 acres each  
year, or 1,500 acres, so that we can  
come back to this same area in forty  
years and again harvest a ripe crop.  
I can probably make the situation  
clearer to you by showing you this  
map on which the forest is block-  
ed out into lots of 1,500 acres each.  
It looks like a crossword puzzle, doesn't  
it? Each one of these areas repre-  
sents the area we cut over each year  
and is called a lot. This year we  
are logging lot 40 on which the trees  
are 40 years old. The next lot, No.  
39, has trees 39 years old, and will  
be ready for the ax next year; lot  
38 in two years, and so on to lot No.  
1, which was cut over recently.

Strictly a Ford schedule is used in  
making our charges for repair work.  
You can charge it at Lively's.

## We don't blame some men for trading out of town!

Let us repeat that we don't blame some men for  
jumping a train or stepping on an accelerator  
when the need for new Spring Clothing sets in—

They don't know us—they don't know this stock—  
they have never been in this store—and they don't  
know what's in store for them.

If the Brainerd men now wearing clothes that  
were purchased in Minneapolis and St. Paul would  
take the time to drop in here and compare notes  
and notions—the bus companies would sell fewer  
tickets and the restaurants, hotels and theatres  
in Minneapolis and St. Paul would do less business  
—and—

We'd do more!

# STUDEBAKER

New Standard Six Coach

**\$1295**

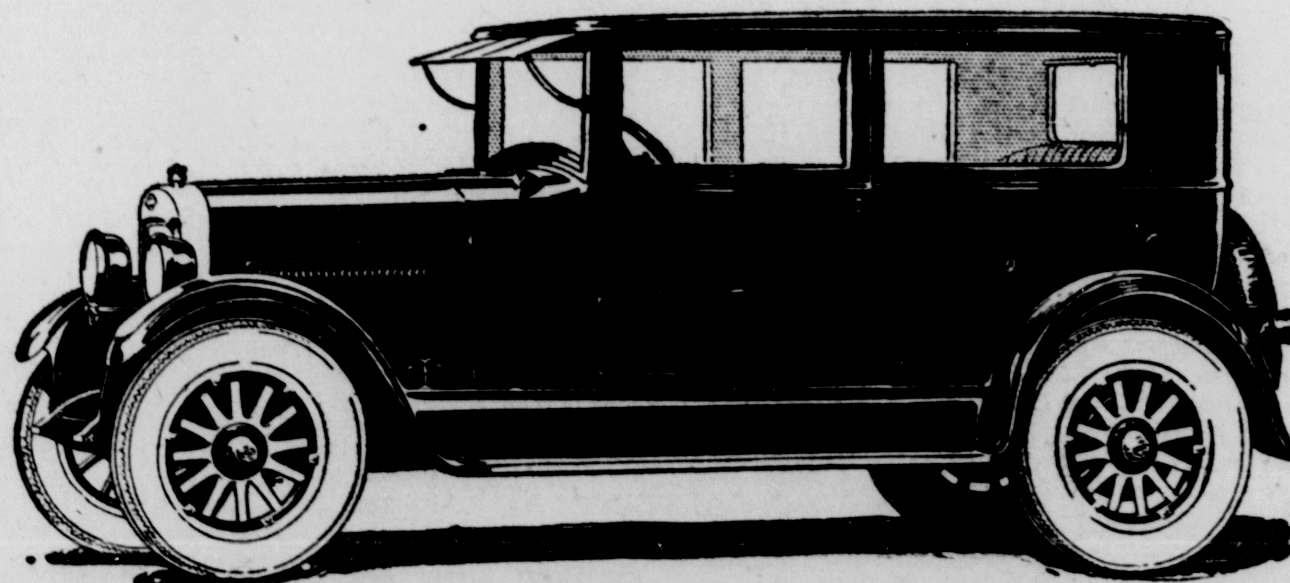

f. o. b. factory  
[with full-size balloon tires]

STUDEBAKER has \$60,000,000 invested in plants in which  
Studebaker cars are manufactured complete, including all  
bodies, both open and closed. No other large automobile manu-  
facturer that we know of makes all of his own bodies.

This means that Studebaker saves the profit of outside parts makers  
and body-builders. Thus the price of this new coach is not bur-  
dened by an extra profit. At \$1295 it represents a value no other  
automobile manufacturer can equal.

And no other manufacturer can offer a coach of such fine quality  
at the price. For every coach that Studebaker builds carries with  
it traditions of fine craftsmanship that have existed in Studebaker  
plants since 1852.

Compare this coach with other cars which sell at much higher  
prices. This will prove that Studebaker values are unequalled.

## LEGS AS SEEN ON THE AVENUE, NEW YORK CITY

NEVER IN HISTORY OF FASHIONS  
HAVE SKIRTS BEEN  
SO SHORT

WOMEN IN THIRTIES, FORTIES  
AND FIFTIES SHOW  
KNEECAPS

By HEDDA HOYT  
(Fashion Editor of the United Press)  
New York, N. Y., April 30.—Half  
a leg! Half a leg! Half a leg up-  
wards!

Never in the history of fashions  
have skirts been so short as they are  
this spring on Fifth Avenue. Every-  
one is wearing them shorter and  
some women are going to extremes  
which have never before been dared.

It isn't the young girls who are  
showing their kneecaps. Its women  
in their thirties, women in their for-  
ties and fifties! Evidently they  
hope to attain the appearance of  
youth by displaying their knee dim-  
ples.

But alas! Not all of them have  
dimpled knees. Flo Ziegfeld once  
said that it was difficult to find beau-  
tiful girls with beautiful legs, as  
most American girls were bowlegged.  
After witnessing Easter's fashion  
parade, we might add that American  
women are not only bowlegged, but  
many of them have ankles that sag  
inwards; ankles that bow outwards  
and knots on their knees. In spite  
of the prevalence of misnamed and  
bandy legs, nearly every woman be-  
lieves that her legs are beautiful.  
Just one word from Paris and up go  
the skirt lengths!

Looking in a Mirror  
Just a little word on the skirt  
question. Be sure your legs are  
lovely before thrusting them on the  
public! Take a look in a long mir-  
ror!

Perhaps the legs are all right, but  
do they conform with the breadth of  
your hips? In other words, do you  
look like a fat tadpole walking on  
slender stilts? If your cheeks are  
beginning to sag, be content with  
skirts that extend to the calf or the  
leg at least! Somehow a kneecap  
that's shapely mismates with sagging  
jowls. Perhaps Mistinguett, who con-  
fesses to over fifty summers and to  
having the prettiest legs in Paris, is  
responsible for the leg-display by  
elderly women in America. Seen  
from footlights, Mistinguett's legs  
were lovely indeed, but many a little  
half-baked flapper has equally pretty  
legs and doesn't draw a fat salary  
on their account.

There's a certain attraction about  
beautiful legs, to be sure. But on  
the streets of New York one sees a  
lot of elderly flappers who are con-  
cealing their varicose veins under  
flesh-toned hosiery. I believe it was  
Benjamin Franklin who wrote that  
a woman's legs were the last of her  
attractions to age. Judging from  
some of the legs one sees, one would  
say that there are a good many cen-  
tenarians running about.

Today finds the 8-year-old wearing  
skirts about twelve inches from the  
ground. The 28-year-old woman  
wears her two or three inches be-  
low the knees. And the 38-year-old  
wears kneelengths. Of course, there  
are a few ladies left who believe that  
a leg is something to walk on—that  
a garter is something to be conceal-  
ed. They know that oyster white,  
blond or fresh-toned hosiery is  
"loud" for streetwear and makes legs  
look more important than the person  
wearing them. Wood shades, tans,  
grays and shades that correspond  
with the frock are far better hosiery  
colors than conspicuous ones.

Shoes and Hosiery  
The most refined women in New  
York are wearing black shoes with  
mouse-gray, light tan, cinnamon or  
light brown hosiery, or they are  
wearing light brown, tan or gray  
shoes with matching hosiery. With  
these colors one may display an extra  
inch or two of leg without drawing  
a crowd.

Plainer shapes prevail in shoes and  
often the simple pump is worn with  
an orange frock. Cut-out effects in  
shoes are chosen only by a few.  
Vamps might be called semi-short—  
they are neither long nor short, but  
rounded and medium. Heels are not  
extremely high, but are halfway be-  
tween the Cuban and the French  
heel.

Blond shoes worn with blond hosi-  
ery are popular for dressy afternoon  
occasions. Some women wear them  
on the streets, but if worn so, they  
should conform with the frock and  
not add contrast. The blond shoe is  
distinctly a dress shoe. Suede or  
kid, however, in light shades the  
suitable for street wear, when one  
prefers light colored shoes.

### Plant for Continuous Bloom

The ideal flower garden is one con-  
tinual sheet of bloom from May until  
frost, but this is an ideal difficult to  
obtain. However, with a careful se-  
lection of annuals and early planting,  
a continuous sheet of bloom increas-  
ing in brilliancy may be secured with-  
out great difficulty from mid-June un-  
til frost.

Several of the most brilliant annu-  
als have short and early or short and  
late seasons of bloom, the poppies be-  
ing an example of the former and the  
asters of the latter. Of all-season  
standbys, stocks, marigolds, petunias  
and verbenas offer a good selection.  
They come into bloom in two months  
or even sooner from seed, and each  
succeeding week produce more bloom  
until cut down by frost.

Properly placed about the garden  
groups of these useful annuals will  
make a sufficiently brilliant show to  
give the appearance of continuous  
bloom throughout the season. The  
French marigolds are one of the first  
to come into bloom, spinning up to a

bud very early in the season and then  
continuing to branch and produce  
more flowers. The verbenas send out  
runners and thus multiplies its bloom-  
ing surface. The petunias branch and  
spread out, producing scores of bloom,  
fragrant particularly at nightfall. The  
stocks are compact growers, throwing  
up a continual succession of bloom  
spikes.

The zinnias, coming into their full  
glory a little later than these annuals,  
make up in speed and brilliancy of  
colors for delay in developing, as the  
colossal types make big bushes by fall.  
They may be counted on for a magnifi-  
cent display from mid-July on.

By sowing annual poppies even be-  
fore frost is out of the ground, the  
display of annuals will begin in May  
and the poppies may be pulled up as  
they begin to flag and other annuals  
transplanted into their places.

Sweet alyssum as an edging plant  
comes into bloom early and is one of  
the last to yield to frost.

### FOREST MANAGEMENT AND FOREST CROPS

By DR. RAPHAEL ZON  
Director, Lake State Experiment  
Station

Charred stumps and bleaching  
snags, the land a liability to the  
owners or a forest property earning  
an annual income. That is the dif-  
ference between treating a forest as  
a mine instead of applying the fun-  
damental principles of forest manage-  
ment and growing trees as a forest  
crop, said Dr. Raphael Zon, Direc-  
tor of the Lake States Forest Experi-  
ment Station, in a recent interview  
on this subject. In the Lake States  
there is a vast amount of land that  
can never be utilized to grow agri-  
cultural crops and for this reason  
forest management and forest crops  
should be a subject of vital interest  
to the people here. It is the only  
source of our future supplies of wood  
and if Uncle Sam is to maintain his  
economic independence in war or  
peace, we, his people, must recognize  
that the forest business must take  
its place among the leading indus-  
tries of the country.

Let us contrast the conditions of a  
timber-mined forest property, the  
custom of today, and a forest prop-  
erty on which the trees are grown  
as a crop under proper management.

An owner has a large tract of Jack  
pine forest in northern Minnesota  
and plans to erect a pulp mill to  
utilize the trees on the area for mak-  
ing pulp. He gives no thought to  
the future, his idea merely being to  
cut off the trees as rapidly as he can.  
He builds his pulp mill at a great  
expense, constructs roads in the for-  
est, invests considerable capital in  
camp equipment, and starts logging  
operations. A small town literally  
springs up over night around the  
mill; stores, hotels, and other places  
of business are started; schools are  
built and soon the town develops in-  
to a thriving community. For a  
time all goes well, everybody is hap-  
py, and things look progressive and  
prosperous, but soon a dark cloud  
appears in the sky. The timber  
which is to supply the mill no longer  
seems inexhaustible and the mill can  
no longer run every day but must

shut down for short periods. Even  
before the last stick is cut, the own-  
er realizes that he should have had  
a little more foresight and consid-  
ered the possibility of growing trees  
as a crop rather than treating the  
forest as a mine. When the end  
does come, he must abandon his mill  
and other equipment at a great loss,  
his employees are thrown out of  
work, and with no source of income  
they must forsake their homes. You  
suggest that they use the land for  
farming. If only they could, this  
would be one solution of the problem  
but they have no capital to clear the  
land, and if they did, they would  
find it quite impossible to grow suf-  
ficient agricultural crops even to ex-  
ist on an existence for the soil is only  
suited to grow trees.

Timber mining, like the four  
horsemen, leaves in its wake charred  
stumps, bleaching snags, wrecked  
homes and abandoned mills.

In a forest business, just as in  
farming, the main idea or goal to  
strive for is to have a crop to har-  
vest each year. To accomplish this,  
the forest manager of course must  
have some systematic plan of man-  
agement so he knows just what he

is doing, and how it affects the fu-  
ture of his forest.

Let us pay a visit to one of these  
wood farms. We would look up the  
forest manager and first we would  
ask him general questions about the  
business. He would show us his  
plan of management and tell us that  
the company had 60,000 acres of Jack  
pine which they were handling so  
they could be assured of 45,000 cords  
of pulpwood each year continuously.

"How do you know that you can  
do this indefinitely?" we ask.

"If you had \$5,000 in the bank  
and were receiving 4 per cent inter-  
est on it and only used this \$200 a  
year, wouldn't you always have an  
income of that amount each year?  
Well, that is just the situation here  
in our forest. Our money instead of  
being in the bank is invested here  
in growing trees, and the wood they  
grow is our interest. We only cut  
what grows each year so we can ex-  
pect to harvest that much just as  
long as we handle the forest prop-  
erty. At present, we have about 900,-  
000 cords of wood capital which pro-  
duces annually the 45,000 cords  
needed by our pulp mill. Of course,  
we can't take this growth of 45,000  
cords that occurs in any one year  
from the trees on which it actually  
grows. That would not only be im-  
practical but unwise because much  
of it occurs on young trees that are  
not yet ripe to cut and are still  
growing rapidly. What we do is to  
cut a quantity of ripe wood that is  
equal to the growth on the entire  
area.

"Just how do you do that?"

"We know that in our forest here,  
Jack pine reaches a size suitable for  
pulpwood in about 40 years. We  
cut 1-40 of our 60,000 acres each  
year, or 1,500 acres, so that we can  
come back to this same area in forty  
years and again harvest a ripe crop.  
I can probably make the situation  
clearer to you by showing you this  
map on which the forest is blocked  
out into lots of 1,500 acres each. It  
looks like a crossword puzzle, doesn't  
it? Each one of these areas repre-  
sents the area we cut over each year  
and is called a lot. This year we  
are logging lot 40 on which the trees  
and 40 years old. The next lot, No.  
39, has trees 39 years old, and will  
be ready for the ax next year; lot  
38 in two years, and so on to lot No.  
1, which was cut over recently.

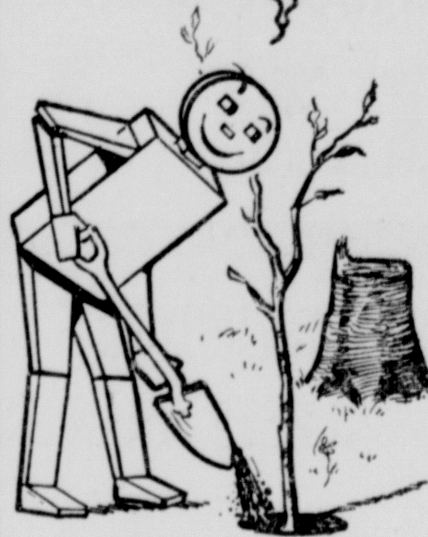

Strictly a Ford schedule is used in  
making our charges for repair work.  
You can charge it at Lively's.

# BRAINERD WELCOMES 24 NEW CITIZENS

Assembly Room at High School Filled to Overflowing at Exercises Held

## DIPLOMAS ARE AWARDED

Graduating Exercises Were of Unusual Interest, Superintendent Cobb Presiding

BRAINERD showed its interest in citizenship and its new citizens by turning out in such numbers that the assembly room at the high school was packed to overflowing on Wednesday evening when 24 members of the evening school in Americanism received their diplomas, and with these certificates the assurance that they will be given their final citizenship papers in district court on Tuesday. One of the 24 finished his evening course last year, the other 23 are members of this year's class.

The graduating exercises were of unusual interest, and held the close attention of the audience from beginning to end. Superintendent W. C. Cobb introduced the numbers on the program, which opened with the singing of "America," by the graduating class. Other musical numbers included a violin solo by Miss Geraldine Kiebler, selections by the Y. M. C. A. quartet and the closing song, "The Star Spangled Banner," followed by the salute to the flag.

Various civic organizations were represented on the program. Mrs. M. A. Bronson spoke for the Daughters of the American Revolution, Mrs. E. J. Quinn for the Brainerd Musical club, D. H. Fullerton for the Lions club and the American Legion, H. F. Michael for the Rotary club, and R. K. Doe, United States naturalization examiner, for the government.

F. G. Dreiling, a member of the graduating class, spoke on the value of the night school to those seeking citizenship. Joseph Swindells, another member of the class, gave Lincoln's Gettysburg address, and Miss Clara Hjerpe and Miss Mille Vanasek, the instructors of the evening classes, told of the work done by their students, and what has been accomplished in the course during the past winter.

Both Miss Hjerpe and Miss Vanasek have been very successful in their evening classes this past winter, and as an appreciation of their efforts, each was presented with a beautiful wrist watch by the students. Mr. Doe making the presentation speech.

The speakers of the evening each dwelt upon the subject of citizenship, its privileges and responsibilities. Mr. Doe described the ideal citizen, not the one who is 100 per cent American, for that high goal has never yet been attained, he said, but rather the citizen who is anxious and willing to work for the advancement and improvement of his country.

Mr. Doe examined the graduates on Tuesday evening, and will present them with their final citizenship papers at the Naturalization Day program in district court on Tuesday.

There is a great deal of enthusiasm in the evening school for those desiring to become citizens of this country. About 25 in the beginners' class this year will form the nucleus of the graduating class for next spring, and it is expected that the attendance in the school next winter will far exceed that of the past season. Quite a number have already signified their intention of joining the evening classes next winter.

### Luther League

The Luther League of the Norwegian-Danish Lutheran church will hold a business meeting this Thursday evening in the church parlors at 7:30 o'clock. All members are asked to be present.

## ODD FELLOWS HAVE CELEBRATION

Unity Lodge Observes 106th Anniversary of Founding of Order in America

### ATTENDANCE TAXES HALL

Address of Evening Delivered by Rev. Frederick Errington of Moorhead

Unity Lodge, No. 194, L. O. O. F., of Brainerd observed the 106th anniversary of the founding of Oddfellowship in America, with an appropriate celebration in its hall on Wednesday evening, which was a decided success from every viewpoint.

The attendance taxed the capacity of the hall, the program was excellent, and the refreshments, delicious. The older members of the lodge remarked that it was like old times to see Unity's room filled with Oddfellows, their wives and friends, all enjoying such a celebration as only this lodge can stage.

The committee selected O. J. Bouma as chairman of the program, a position that he has filled on numerous former occasions. Mr. Bouma introduced the following excellent program:

Violin solo—Miss Lorraine Morrison accompanied by Miss Cora Rickard  
Vocal duet—Miss Esther Fogelstrom and Miss Jennie Beck  
Vocal solo—Miss Rickard  
Vocal solo—D. H. Fullerton accompanied by Miss Mildred Skauge  
Address of the evening—Rev. Frederick Errington

Rev. Errington, who is a former resident of Brainerd, and who still holds membership in Unity lodge, gave an inspiring and instructive address. He outlined the history of Oddfellowship since its inception in this country, and enumerated many of the accomplishments of the order, which he termed the flowers of a plant which had received excellent care and attention.

The Rebekahs served refreshments after the program, consisting of fruit salad, Parker house rolls, ice cream, cake and coffee. Mrs. Joseph Britton, chairman of the committee received many congratulations on the splendid service that was rendered in feeding the large crowd.

A good delegation of Odd Fellows were present, representing the Iron-ton lodge.

One of the accomplishments of the order, which was stressed at Wednesday evening's meeting, was the success of the Odd Fellow's home at Northfield, where 100 residents are cared for, the majority of which are orphan children. The property at Northfield is valued at several hundred thousand dollars, and is a fine memorial to the precepts and ideals of the order.

Program and Parcel Sale  
The ladies aid of the Peoples Congregational church will give a program and parcel sale in the church on Friday evening, May 1st at 7:45 o'clock. A small admission will be charged for the program and the parcels will sell for a nominal price. The program consists of the following:

Selection—Lyric orchestra.  
"When I'm a Woman"—7 small girls.  
Recitation—Glen Benest.  
Vocal solo—Mrs. Gust Lind.  
"Why Women Vote"—Mrs. Otto Lundberg.  
Violin solo—Mrs. Louis Johnson.  
Plantation songs—Group of girls.  
Scout demonstrations—Troop 3.  
Piano duet—Mrs. John Vanni and Miss Beatrice Stearns.  
Selection—Lyric orchestra.

## MARVIN TURNER PASSED AWAY

Succumbed to Extended Illness Caused by Inflammatory Rheumatism

### CAME TO BRAINERD IN 1914

Until a Few Weeks Ago Was a Truck Driver For Brennemans Bakery

Marvin Turner, passed away at his home, 318 Front street, on Wednesday morning, following an extended illness caused from inflammatory rheumatism and heart trouble.

The deceased was born at Ruthven, Iowa, March 15th, 1905. He came to Brainerd in 1914, when his parents moved here, and has made this city his home ever since. Until five weeks ago he was employed as driver of the delivery truck for the Brennemans bakery.

Beside his parents, Mr. and Mrs. Henry Turner, Marvin is survived by three brothers, Oliver and Robert, of Brainerd, and Hustin, his twin brother, of Fairmont, two sisters, Edna and Lillian, living at home.

The funeral will be held from the Methodist church on Friday afternoon at 2 o'clock. The remains may be viewed by friends at the Whitney chapel on Friday morning.

**Purol**

## NORDKAP SINGING CLUB IS COMING

Sagatun Lodge No. 18, Sons of Norway, has made arrangements with J. Backen and H. Aakeland, president and secretary of the first district, of the organization to be with the local order on Saturday evening, May 2, at the Odd Fellows hall, at 8 o'clock.

They will bring with them a part of the Nordkap singing club from Minneapolis and, if possible, Carsten Woll, soloist. All are invited and assured an excellent program.

### Past Noble Grand's Club

The Past Noble Grand's club of the Florence Rebekah lodge will meet at the home of Mrs. J. C. Clausen, Friday afternoon, May 1, at 2:30 o'clock.

## J. O. W. WUNDERLICH, PIONEER, IS DEAD

Was Veteran of Civil War and Resident of County for Past 25 Years

### DIED AT HIS NEUTRAL HOME

Buried in Garrison Cemetery, Rev. Heidke Officiating at Funeral Services

John W. Wunderlich, a veteran of the Civil war, and a resident of Crow Wing county for the past 25 years, passed away at his home at Neutral, near Mille Lacs, on Saturday, and was buried in the Garrison cemetery on Tuesday afternoon.

Mr. Wunderlich was born in Germany, October 22, 1836. He came to the United States at the age of 11 years, first living near Milwaukee, Wis., for eight years, then moving to Stevensville, where he lived for several years, and where he was married.

The family moved to Minnesota in 1883, first settling on a farm near Marshall. They came to Crow Wing county in 1900, Mr. Wunderlich conducting a store at Neutral until five years ago.

Mrs. Wunderlich preceded her husband in death 17 years ago. Fourteen children were born to the union, 12 of whom are living. They are Charles, Walter and W. Wunderlich, Mrs. O. B. Anderson, Mrs. George McCalvey, Mrs. Sam Varner, Mrs. P. A. Anderson, Mrs. Earl Borden and Miss Ada Wunderlich, all of Crow Wing county. Mrs. Ed Miller, of Coeur d'Alene, Idaho, Mrs. Freda Nelson, of Marshall, Minn., and Ernest of Rice Lake, Idaho. There are 54 grandchildren.

The funeral was conducted from the home, Rev. Heidke, of the German Lutheran church of Platte Lake, officiating, and interment made in the family plot beside his wife.

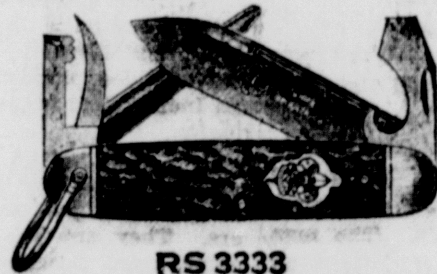

### Food Sale

On Saturday afternoon at the John M. Bye store, the ladies aid of the First Congregational church will hold a food sale. The sale will begin at 1 P. M.

# BRAINERD WELCOMES 24 NEW CITIZENS

Assembly Room at High School Filled to Overflowing at Exercises Held

## DIPLOMAS ARE AWARDED

Graduating Exercises Were of Unusual Interest, Superintendent Cobb Presiding

Braingerd showed its interest in citizenship and its new citizens by turning out in such numbers that the assembly room at the high school was packed to overflowing on Wednesday evening when 24 members of the evening school in Americanism received their diplomas, and with these certificates the assurance that they will be given their final citizenship papers in district court on Tuesday. One of the 24 finished his evening course last year, the other 23 are members of this year's class.

The graduating exercises were of unusual interest, and held the close attention of the audience from beginning to end. Superintendent W. C. Cobb presided over the exercises, which opened with the singing of "America," by the graduating class. Other musical numbers included a violin solo by Miss Geraldine Kiebler, selections by the Y. M. C. A. quartet and the closing song, "The Star Spangled Banner," followed by the salute to the flag.

Various civic organizations were represented on the program. Mrs. M. A. Bronson spoke for the Daughters of the American Revolution, Mrs. E. J. Quinn for the Braingerd Musical club, D. H. Fullerton for the Lions club and the American Legion, H. F. Michael for the Rotary club, and R. K. Doe, United States naturalization examiner, for the government.

F. G. Drieling, a member of the graduating class, spoke on the value of the night school to those seeking citizenship. Joseph Swindell, another member of the class, gave Lincoln's Gettysburg address, and Miss Clara Hjerpe and Miss Mille Vanasek, the instructors of the evening classes, told of the work done by their students and what has been accomplished in the course during the past winter.

Both Miss Hjerpe and Miss Vanasek have been very successful in their evening classes this past winter, and as an appreciation of their efforts, each was presented with a beautiful wrist watch by the students. Mr. Doe making the presentation speech.

The speakers of the evening each dwelt upon the subject of citizenship its privileges and responsibilities. Mr. Doe described the ideal citizen, not the one who is 100 per cent American for that high goal has never yet been attained, he said, but rather the citizen who is anxious and willing to work for the advancement and improvement of his country.

Mr. Doe examined the graduates on Tuesday evening, and will present them with their final citizenship papers at the Naturalization Day program in district court on Tuesday.

There is a great deal of enthusiasm in the evening school for those desiring to become citizens of this country. About 25 in the beginners' class this year will form the nucleus of the graduating class for next spring, and it is expected that the attendance in the school next winter will far exceed that of the past season. Quite a number have already signified their intention of joining the evening classes next winter.

## Luther League

The Luther League of the Norwegian-Danish Lutheran church will hold a business meeting this Thursday evening in the church parlors at 7:30 o'clock. All members are asked to be present.

## ODD FELLOWS HAVE CELEBRATION

Unity Lodge Observes 106th Anniversary of Founding of Order in America

## ATTENDANCE TAXES HALL

Address of Evening Delivered by Rev. Frederick Errington of Moorhead

Unity Lodge, No. 194, L. O. O. F., of Braingerd observed the 106th anniversary of the founding of Oddfellowship in America, with an appropriate celebration in its hall on Wednesday evening, which was a decided success from every viewpoint.

The attendance taxed the capacity of the hall, the program was excellent, and the refreshments, delicious. The older members of the lodge remarked that it was like old times to see Unity's room filled with Oddfellows, their wives and friends, all enjoying such a celebration as only this lodge can stage.

The committee selected O. J. Bouma as chairman of the program, a position that he has filled on numerous former occasions. Mr. Bouma introduced the following excellent program:

Violin solo—Miss Lorraine Morrison accompanied by Miss Cora Rickard  
Vocal duet—Miss Esther Fogelstrom and Miss Jennie Beck  
Vocal solo—Miss Rickard  
Vocal solo—D. H. Fullerton accompanied by Miss Mildred Skauge  
Address of the evening—Rev. Frederick Errington

Rev. Errington, who is a former resident of Braingerd, and who still holds membership in Unity lodge, gave an inspiring and instructive address. He outlined the history of Odd Fellowship since its inception in this country, and enumerated many of the accomplishments of the order, which he termed the flowers of a plant which had received excellent care and attention.

The Rebekahs' served refreshments after the program, consisting of fruit salad, Parker house rolls, ice cream, cake and coffee. Mrs. Joseph Britton, chairman of the committee, received many congratulations on the splendid service that was rendered in feeding the large crowd.

A good delegation of Odd Fellows were present, representing the Iron-ton lodge.

One of the accomplishments of the order, which was stressed at Wednesday evening's meeting, was the success of the Odd Fellow's home at Northfield, where 100 residents are cared for, the majority of which are orphan children. The property at Northfield is valued at several hundred thousand dollars, and is a fine memorial to the precepts and ideals of the order.

Program and Parcel Sale  
The ladies aid of the Peoples Congregational church will give a program and parcel sale in the church on Friday evening, May 1st at 7:45 o'clock. A small admission will be charged for the program and the parcels will sell for a nominal price. The program consists of the following:

Selection—Lyric orchestra.  
"When I'm a Woman"—7 small girls.  
Recitation—Glen Benest.  
Vocal solo—Mrs. Gust Lind.  
"Why Women Vote"—Mrs. Otto Lundberg.

Violin solo—Mrs. Louis Johnson.  
Plantation songs—Group of girls.  
Scout demonstrations—Troop 3.  
Piano duet—Mrs. John Vanni and Miss Beatrice Stearns.

Selection—Lyric orchestra.

## MARVIN TURNER

## PASSED AWAY PIONEER, IS DEAD

Succumbed to Extended Illness Caused by Inflammatory Rheumatism

CAME TO BRAINGERD IN 1914

Until a Few Weeks Ago Was a Truck Driver For Brennemans Bakery

Marvin Turner, passed away at his home, 318 Front street, on Wednesday morning, following an extended illness caused from inflammatory rheumatism and heart trouble.

The deceased was born at Ruthven, Iowa, March 15th, 1905. He came to Braingerd in 1914, when his parents moved here, and has made this city his home ever since. Until five weeks ago he was employed as driver of the delivery truck for the Brennemans bakery.

Beside his parents, Mr. and Mrs. Henry Turner, Marvin is survived by three brothers, Oliver and Robert, of Braingerd, and Hustin, his twin brother, of Fairmont, two sisters, Edna and Lillian, living at home.

The funeral will be held from the Methodist church on Friday afternoon at 2 o'clock. The remains may be viewed by friends at the Whitney chapel on Friday morning.

## SHALL AMATEUR RULES BE AMENDED?

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, April 20.—That old amateur question, which has been causing such a rumpus in tennis circles for a year or more will hob up next month to bother track and field sports when the International Olympic Committee meets at Prague.

Since Sweden has admitted its willingness to compensate amateur athletes for the time they lose from their regular occupations while they are competing in amateur meets, the international committee has been preparing for the discussion of a subject that will have much to do with the future of athletics.

While the names of the American delegates who will attend the international meeting have not been made public, it is quite certain that the votes of the United States will not be cast to affirm any change in the current code which would make it legal for an athlete to get a cent of revenue from his actual competition.

By insisting that there is only one way to be an amateur, the American delegates will open themselves to charges that they are speaking from a fat pocketbook and not from a pure athletic heart. Foreign athletes have the idea that all the American boys are rich and that even a workingman can go to his boss with:

"I made the Olympic team and I'm going to be gone for two months. Send half of my pay-check to me and keep the rest until I come back."

Such a condition of affairs is silly, however, as every one knows in this country. Several instances have happened where employers refused to grant a leave of absence even without pay to athletes in their employ who could have made the Olympic teams.

There were also Dick Landon, the former Olympic high-jump champion, and Willie Plant, one of the world's greatest walkers, who declined an appointment on the Olympic team last summer because they couldn't afford to make the trip. They were sure point-winners, but they were left at home. There is no case on record where sure point-winners were left at home by foreign teams for any reason.

The suggestion that a differentiation might be made between a professional in one sport and an amateur in another has been made in this country before, and it was turned down with very little consideration.

College athletic officials have been struggling for years to correct what is generally admitted to be a general practice of college baseball players to cheat a little by playing summer baseball. It was suggested by some of the liberals that it would not be wrong for a college athlete to be a professional baseball player and an amateur football player. But nothing came of it, excepting some ridicule.

As far as is known, the American Olympic teams in 1920 and 1924 have been as purely amateur as a human agency could make them.

S. was valued at \$25,000 in his prime, and after he left the track he was pensioned by the late Harry J. Stoeckle, the wealthy Wilmington brewer, who owned him.

READ THE WANT ADS DAILY

## MAY BRINGS

## GOLF THRILLS

## COUNTRY CLUB COURSE TO BE OPENED TOMORROW; IMPROVEMENTS PLANNED

May 1st will bring a thrill of joy to all local golfers, for on that day the course of the Brainerd Country club will be open for play.

For the past month the real enthusiasts have been using temporary greens, but the regular greens are now rolled and sanded, and the whole course has been put in splendid shape.

The club is looking forward to an active year, probably the best in its history. With this in mind, every effort will be made to keep the grounds in the very best condition, and every thing will be done to look after the wants and comforts of all visitors.

A change which the club inaugurated this year, and which has already added a number of new members, is a "deferred membership" plan. Under this arrangement one may enjoy all of the playing privileges of the club this first year by the payment of the regular club dues.

This lessens the burden and gives the beginner an opportunity to try out the game. Should he wish to continue playing the second year he can become a regular member by the purchase of a share of stock at that time.

A cottage for the grounds keeper has been built, and the greens committee is planning other improvements, which may possibly include the construction of one or two grass greens.

While no definite program of events for the coming summer has been arranged, the tournament season will open on Decoration day with a match between the locals and the fast Little Falls players. This announcement will be a welcome one, as the Brainerd club always rejoices at an opportunity to play the down-river club. The Little Falls aggregation is considered a very sportsman-like club, and the locals thoroughly enjoy any matches that are scheduled between the two.

## WATER SPORTS PARTY AT MINNEAPOLIS A. C.

A "get acquainted" and water sports party for 40 boys who plan to spend the months of July and August at Camp Lincoln in northern Minnesota, will be given Saturday afternoon at the Minneapolis Athletic club, by Messrs. C. A. Lang and S. M. Waters. Minneapolis boys in the group will include Frederick Atkinson, Norris Lang, John Dalrymple, Murray Waters, William Driscoll, Gordon Gooch, Robert Caegre, Barclay Harris, Allen Hill and William Ross.—Minneapolis Tribune.

Camp Lincoln was formerly called the Blake Camp for Boys, and is situated on the west shore of Hubert lake.

## Norfolk Can't See Well Enough to Box on Coast

San Francisco, Calif., April 20.—Kid Norfolk, negro light heavyweight of New York, has been barred from California boxing rings. Sec. Walter Yarwood of the state athletic commission ruled specifically against Norfolk because the battler has only one good eye.

## Inventor Had Taken No Chance of Losing

Surely, the Scotch are the most tolerant people in the world, as they bear the brunt of most of its so-called humor. But there is considerable basis for the well-circulated theory that the Scot is canny. Here is an authentic yarn, vouchered by Harry Furniss in his "Some Victorian Men" that illustrates the point.

When Bessemer, the genius who gave to steel his name, came to make his discovery public, he put a lump of the famous steel in his pocket and made his way to Nasmyth, of steel-hammer fame.

Placing the metal on Nasmyth's desk, he told him that he had made an extraordinary discovery which would revolutionize the whole metal world. Then came a little incident which shows what wonderful heads these Scotch financiers possess. What do you think Nasmyth said to this excited inventor?

"Eh, mon, it's very risky to show your wonderful invention. The world is very dishonest."

To which the inspiring inventor replied: "Right, Mr. Nasmyth, I just called upon whom I was coming to see, so with my last half-crown I registered the invention on my way."

## Effective Duster

You can make a duster that is invaluable for fine furniture by saturating a piece of cheesecloth in kerosene oil and hanging it out in the sunlight to dry.

## GOVERNOR AL SMITH REFUSES TO INTERVENE IN BEHALF OF 3 BANDITS

(By United Press)  
New York, April 20.—Word was received from Governor Al Smith at his headquarters at the Biltmore Hotel today that his decision not to intervene in behalf of Morris and Joseph Diamond and John Farina, notorious bandits, stands. The men will die in the electric chair at Sing Sing at 11 P. M. for the murder of William H. McLaughlin and William S. Barlow, west end bank messengers killed in a holdup in Brooklyn in November, 1923.

## Mahogany

The real mahogany is a tropical tree and most of it is grown in the Central American countries, such as Honduras, Guatemala, British Honduras and southern Mexico. A great deal of the mahogany of these countries is floated down the rivers to the sea in rafts. The timber is roughly squared and then floated down the streams during the rainy season.

## True Friendship

Friendship is a strong and habitual inclination in two persons to promote the good and happiness of each other.

## Sore Muscles Tendons--Joints

## Athletes all over America are using this quick acting emollient because it does take the stiffness and soreness out of the muscles in an astonishing short time.

Golfers, Baseball players, tennis players, runners and jumpers want instant relief and that's just what they get.

Joint-Ease is for bad acting joints whether in foot, ankle, knee, hip, neck, shoulder, elbow, fingers or spine and for that purpose is the fastest selling remedy in America today—a tube for 60 cents at Johnson's Pharmacy and Economy Drug Co., and remember, when Joint-Ease gets in joint agony gets out—promptly.—Advt.

## Sporting Squibs

Since 1829, the Grand National has ranked as the principal steeplechase that is run in England.

John Kathan of Osage, Iowa, aged eighty-four, has been racing on harness tracks for sixty-four years.

Clarence Griffith, a pitcher, has been obtained by Memphis from the New Haven Eastern league club.

Pittsfield of the Eastern league, has traded Pitcher Spike Van Alstyne to Albany for Catcher Fred Hager.

There are six player-managers in the major leagues—Bancroft, Cobb, Collins, Harris, Sisler and Speaker.

Edouard Mascart of Paris, European featherweight champion, has postponed his departure for the United States.

The tragedy in Nurm's visit to these shores is that he can't put his deeds and ability on phonograph records.

William T. Tilden, the famous lawn tennis player, has for a mascot a four-leaf clover that once belonged to Abraham Lincoln.

Bill Klepper, former president of the Portland Pacific Coast league club, is now in the home-building business in Pasadena, Cal.

Indianapolis has signed Fred Shennske, a right-hand pitcher from Detroit. He was given a tryout by Washington two years ago.

The Harvard athletic committee ratified an agreement with Yale and Princeton to limit the salary budget for varsity football coaches.

Cadet J. S. Roosma '26 of Passaic, N. J., has been chosen captain of the United States Military academy basketball team for next season.

Walter Kopf has accepted terms with Little Rock. He is a third baseman and a brother of Larry Kopf. He has had brief terms with Reading and Oakland.

Ura Beauchamp of Crawfordsville, Iowa, and Herbert Vandevine of Chicago, rookie pitchers, have been signed by Burlington of the Mississippi Valley league.

Ted Hank, third baseman, has been sold by Albany of the Eastern league to New Haven of the same loop. Prior to playing with Albany he was with Hartford.

Outfielder George Lobeau has been traded by Peoria of the Three-I league to Springfield of the Eastern league, for Outfielder Frances Duffy. It was an outright swap.

A Chicago coed thinks that Knute Rockne is a Norwegian jockey, showing that she must have been talking at random with one of Chicago's football players.

Memphis has turned over to Knoxville of the South league, Clyde Youngblood and Kenneth Jones, two young right-handed pitchers. Youngblood is an Indian, sent to the Chicks by Washington.

Dubuque of the Mississippi Valley league has signed three semipro players. They are Wade Rambo of Decatur, third baseman; Arthur Porter of Decatur, outfielder, and Frank Clifton of Bloomington, Ill., outfielder.

Mrs. J. C. Dunn, owner of the Cleveland Indians, has denied a report that she plans to sell the club. The rumor was that Mrs. Dunn, widow of the late owner of the club, had desired to make her permanent home in California and forget about baseball.

John W. Norton, former owner of the St. Paul club, has set to rest rumors that he and Mike Cantillon, former Minneapolis owner, were dickering for the Vernon Coast league team. "If I wanted a ball club, I would have kept the one I had in St. Paul," said Norton.

## McCoy's Keeps Old Folks Feeling Young

## Try This New Cod Liver Oil Preparation to Increase Your Strength, Vitality and Endurance

Why should any old person let feebleness overwhelm them in these enlightened days? Surely everyone knows by this time that Cod Liver Oil contains more vitamins than anything else on earth and is the greatest body builder in the world. Any physician will tell you that.

You'll like to take McCoy's Cod Liver Oil Compound Tablets—they are sugar coated and as easy to take as candy and they do help old people.

Why not try being years younger again—why not grow stronger in body, in mind, in vitality? Why not take McCoy's Cod Liver Oil Compound Tablets and drop years from your age in 30 days? We believe that a 30 days treatment will make you feel years younger—but at any rate try them for 30 days and if you are not satisfied get your money back—60 tablets—60 cents at Johnson's Pharmacy, Economy Drug Co. or any progressive druggist. Be sure and get McCoy's—the original and genuine.—Advt.

## GOITRE

Completely Removes. Milwaukee Lady Tells of Relief From a Colorless Liniment

Celia Shikora, 621 10th St., Milwaukee, Wisconsin, says she will tell or write her experience with Sorbol-Quadruple. She was relieved of difficult breathing, dizziness and a clogged feeling in throat. Inquire at Johnson's Pharmacy, all drug stores or write Sorbol Company, Mechanicsburg, Ohio.—Advt.

## GOOD-BY STOMACH GAS

No matter what you have tried, you will be surprised at the QUICK action of simple buckthorn bark, magnesium sulphate, C. P. glycerine, etc., as mixed in Adlerika. This removes GAS in ten minutes and brings out old waste matter you never thought was in your system.

Adlerika is such an excellent intestinal evacuant that it is wonderful for constipation and stomach trouble. Stops that full, bloated feeling and makes you happy and cheerful. Don't waste time with pills or tablets but let Adlerika give you bowels a REAL cleansing today! Johnson's Pharmacy and Economy Drug Co.—Advt.

THE PARTY who took box of lady's clothes from rear platform of Gruenagen Co. please return same and nothing will be said. 2707-28011

## CHIROPRACTIC GETS YOU WELL!

Office Hours, 1:30 to 7:30—Others by Appointment

SHALL AMATEUR RULES BE AMENDED?

By HENRY L. FARRELL  
(United Press Sports Editor)  
New York, April 30.—That old amateur question, which has been causing such a rumpus in tennis circles for a year or more will hob up next month to bother track and field sports when the International Olympic Committee meets at Prague.

Since Sweden has admitted its willingness to compensate amateur athletes for the time they lose from their regular occupations while they are competing in amateur meets, the international committee has been preparing for the discussion of a subject that will have much to do with the future of athletics.

While the names of the American delegates who will attend the international meeting have not been made public, it is quite certain that the votes of the United States will not be cast to affirm any change in the current code which would make it legal for an athlete to get a cent of revenue from his actual competition.

By insisting that there is only one way to be an amateur, the American delegates will open themselves to charges that they are speaking from a fat pocketbook and not from a pure athletic heart. Foreign athletes have the idea that all the American boys are rich and that even a workman can go to his boss with:

"I made the Olympic team and I'm going to be gone for two months. Send half of my pay-check to me and keep the rest until I come back."

Such a condition of affairs is silly, however, as every one knows in this country. Several instances have happened where employers refused to grant a leave of absence even without pay to athletes in their employ who could have made the Olympic teams.

There were also Dick Landon, the former Olympic high-jump champion, and Willie Plant, one of the world's greatest walkers, who declined an appointment on the Olympic team last summer because they couldn't afford to make the trip. They were sure point-winners, but they were left at home. There is no case on record where sure point-winners were left at home by foreign teams for any reason.

The suggestion that a differentiation might be made between a professional in one sport and an amateur in another has been made in this country before, and it was turned down with very little consideration.

College athletic officials have been struggling for years to correct what is generally admitted to be a general practice of college baseball players to cheat a little by playing summer baseball. It was suggested by some of the liberals that it would not be wrong for a college athlete to be a professional baseball player and an amateur football player. But nothing came of it, excepting some ridicule.

As far as is known, the American Olympic teams in 1920 and 1924 have been as purely amateur as a human agency could make them.

Former Champ Trotting Stallion Drops Dead

Milford, Del., April 30.—A noble old campaigner passed out when Harry J. S., once the world champion trotting stallion, dropped dead at the Stockle farm. Harry J. S. was valued at \$25,000 in his prime, and after he left the track he was pensioned by the late Harry J. Stockle, the wealthy Wilmington brewer, who owned him.

AMUSEMENTS

Barbara La Marr Began as Dancer  
Barbara La Marr, who came into screen prominence as Antoinette de Mauban in Rex Ingram's "The Prisoner of Zenda," and who created a sensation as Zarela in "Trifling Women," is gaining greater laurels in her most absorbing characterization, that of the crafty Russian spy in the Fred Niblo production of "Strangers of the Night," the photoplay now at the New Park, adapted from the famous stage play, "Captain Applejack."

Picture Shows the Perils of Early Travel in West

There is an element of romance in the fact that South Dakota was chosen as the location for "The Deadwood Coach," a Tom Mix production portraying life in the wildest west during the "eighties."

It was through the South Dakota Bad Lands that the original Deadwood Coach ran its perilous course over rocky roads and tortuous trails, attacked by hostile Indians and pursued by bandits eager to possess the freight of gold it often carried.

The Deadwood Trail started at Cheyenne and ran through Laramie to Deadwood, South Dakota. The first coach, built in 1863, was constructed of iron to be bullet proof. It was manned by eight guards besides the driver. Each guard carried a rifle and two revolvers, and their combined fire could deliver 136 shots without reloading.

There were many times when it seemed as though the old coach was marked by fate for certain destruction, but it weathered all the storms, and is now on exhibition at the Smithsonian Institute, Washington.

A replica of it is used in the film which is being shown at the Lyceum tonight and Friday.

Beautiful Doris May is Mix's leading lady in this new big special.

NUMBER OF HORSES TO DWINDLE A HALF BY '30, U. S. REPORTS

Washington, April 30.—"If wishes were horses"—five years from now we may be singing that song, the department of agriculture predicts.

Experts have been taking a horse census. They say that by 1930 there will be only 191 horses 4 to 9 years old for every 450 now on farms, and only 278 mules for every 519 at present.

Horses 4 to 9 years of age are most desirable for farm work.

During the last few months the cost of horses and mules has risen sharply, they say, and breeders are getting interested in the new market which appears to be inevitable.

Figures recently made available by the department of commerce showed that manufacturers of horse-drawn vehicles were 120 per cent greater in 1923 than in 1921. The value of the wagons, buggies and sleighs manufactured in 1923 was \$22,492,408.

MAY BRINGS GOLF THRILLS

COUNTRY CLUB COURSE TO BE OPENED TOMORROW; IMPROVEMENTS PLANNED

May 1st will bring a thrill of joy to all local golfers, for on that day the course of the Brainerd Country club will be open for play.

For the past month the real enthusiasts have been using temporary greens, but the regular greens are now rolled and sanded, and the whole course has been put in splendid shape.

The club is looking forward to an active year, probably the best in its history. With this in mind, every effort will be made to keep the grounds in the very best condition, and everything will be done to look after the wants and comforts of all visitors.

A change which the club inaugurated this year, and which has already added a number of new members, is a "deferred membership" plan. Under this arrangement one may enjoy all of the playing privileges of the club this first year by the payment of the regular club dues.

This lessens the burden and gives the beginner an opportunity to try out the game. Should he wish to continue playing the second year he can become a regular member by the purchase of a share of stock at that time.

A cottage for the grounds keeper has been built, and the greens committee is planning other improvements, which may possibly include the construction of one or two grass greens.

While no definite program of events for the coming summer has been arranged, the tournament season will open on Decoration day with a match between the locals and the fast Little Falls players. This announcement will be a welcome one, as the Brainerd club always rejoices at an opportunity to play the down-river club. The Little Falls aggregation is considered a very sportsman-like club, and the locals thoroughly enjoy any matches that are scheduled between the two.

WATER SPORTS PARTY AT MINNEAPOLIS A. C.

A "get acquainted" and water sports party for 40 boys who plan to spend the months of July and August at Camp Lincoln in northern Minnesota, will be given Saturday afternoon at the Minneapolis Athletic club, by Messrs. C. A. Lang and S. M. Waters.

Minneapolis boys in the group will include Frederick Atkinson, Norris Lang, John Dalrymple, Murray Waters, William Driscoll, Gordon Gooch, Robert Caegre, Barclay Harris, Allen Hill and William Ross.—Minneapolis Tribune.

Norfolk Can't See Well Enough to Box on Coast

San Francisco, Calif., April 30.—Kid Norfolk, negro light heavyweight of New York, has been barred from California boxing rings. See Walter Yarwood of the state athletic commission ruled specifically against Norfolk because the battler has only one good eye.

Inventor Had Taken No Chance of Losing

Surely, the Scotch are the most tolerant people in the world, as they bear the brunt of most of its so-called humor. But there is considerable basis for the well-circulated theory that the Scot is canny. Here is an authentic yarn, vouched for by Harry Farniss in his "Some Victorian Men" that illustrates the point.

When Bessemer, the genius who gave to steel his name, came to make his discovery public, he put a lump of the famous steel in his pocket and made his way to Nasmyth, of steel-hammer fame.

Placing the metal on Nasmyth's desk, he told him that he had made an extraordinary discovery which would revolutionize the whole metal world. Then came a little incident which shows what wonderful heads these Scotch financiers possess. What do you think Nasmyth said to this excited inventor?

"Eh, mon, it's very risky to show your wonderful invention. The world is very dishonest."

To which the inspiring inventor replied:

"Right, Mr. Nasmyth, I just calculated whom I was coming to see, so with my last half-crown I registered the invention on my way."

Effective Duster

You can make a duster that is invaluable for fine furniture by saturating a piece of cheesecloth in kerosene oil and hanging it out in the sunlight to dry.

RUTH MUST REMAIN IN BED FOR 2 WEEKS

New York, April 30.—Babe Ruth is still on the way to recovery and is doing well, but he will not be able to leave the hospital for at least two weeks, Dr. Edward King said today. The reports circulated that the Babe would never be able to play again were said to be unfounded. "I think he will be able to play better than he ever did," Dr. King said.

ELECTRIC CHAIR FOR MURDERERS

GOVERNOR AL SMITH REFUSES TO INTERVENE IN BEHALF OF 3 BANDITS

(By United Press)  
New York, April 30.—Word was received from Governor Al Smith at his headquarters at the Biltmore Hotel today that his decision not to intervene in behalf of Morris and Joseph Diamond and John Farina, notorious bandits, stands. The men will die in the electric chair at Sing Sing at 11 P. M. for the murder of William H. McLaughlin and William S. Barlow, west end bank messengers killed in a holdup in Brooklyn in November, 1923.

Mahogany

The real mahogany is a tropical tree and most of it is grown in the Central American countries, such as Honduras, Guatemala, British Honduras and southern Mexico. A great deal of the mahogany of these countries is floated down the rivers to the sea in rafts. The timber is roughly squared and then floated down the streams during the rainy season.

GOITRE

Completely Removes. Milwaukee Lady Tells of Relief From a Colorless Liniment

Celia Shikora, 621 10th St., Milwaukee, Wisconsin, says she will tell or write her experience with Sorbol-Quadrone. She was relieved of difficult breathing, dizziness and a clogged feeling in throat. Inquire at Johnson's Pharmacy, all druggists or write Sorbol Company, Mechanicsburg, Ohio.—Advt.

GOOD-BY STOMACH GAS

No matter what you have tried, you will be surprised at the QUICK action of simple buckthorn bark, magnesium sulphate, p. p. glycerine, etc., as mixed in Adlerika. This removes GAS in ten minutes and brings out old waste matter you never thought was in your system.

Adlerika is such an excellent intestinal evacuant that it is wonderful for constipation and stomach trouble. Stops that full, bloated feeling and makes you happy and cheerful. Don't waste time with pills or tablets but let Adlerika give your bowels a REAL cleansing today! Johnson's Pharmacy and Economy Drug Co.—Advt.
